• Designed By Fernando DaSilva •

• Instructions •

1. Start by loosening screw of Scrimp finding to allow wire to go through it; feed 2 inches of gold wire through the Scrimp finding, add one copper wire guardian, attach lobster clasp and then back through the Scrimp finding; tighten screw for a secure finish; trim excess wire;
2. Slide gold wire through velour tubing slowly until tip of wire comes out of tubing;
3. Open carefully one oval jump ring and attach to solid round ring and close gently; do the same with all the six rings left;
4. Slide all the seven rings from step 3 to piece from strand assembled on step 2;
5. Close end of strand tubing following in reverse directions given on step 1; add one oval jump ring attached to extension chain;
6. Wrap butterscotch pendant using small chain, close both ends of chain using small jump ring; hang gold leaf from chain facing forward; link one oval jump ring to chain;
7. Open last oval jump ring and attach to piece assembled on step 6.
