Jewel Loom™
By Julianna C. Hudgins

Patent Pending

A   **B**

Jewel Loom™ - By Julianna Hudgins   *NEW* **EXCLUSIVE!**

The Jewel Loom™, designed by Julianna C Hudgins, is innovative, portable, lightweight and easy to use. The sleek design with a work surface of 2.75" wide and 10.5" long is perfect for creating fashionable, on-trend jewelry pieces. The Jewel Loom fits perfectly in the palm of your hand allowing for ease of use for a comfortable grip and ultimate control while bead weaving. Enjoy endless hours of creativity while making unique bracelets, necklaces, pouches, pendants, ring tops, apparel, hair accessories, and much more! Instructions included with both loom sets. Patent Pending.

Detailed instructions are included in both loom sets.

	Description	Part #
A	Jewel Loom and Rod	206S-060
B	Jewel Loom, Rod, Bag, Needle, and Threader	206S-064

The Jewel Loom Kit comes with a zippered bag, needle, and threader.

- **Create Fashion Forward pieces like Bracelets, Beaded Pouches, Pendants, Fashion Ring Tops, Apparel & Hair Accessories.**

- **Portable & Lightweight, great for traveling or taking with you to jewelry making parties.**

- **Easy to use, sleek design, shaped to fit in the palm of your hand for comfortable grip and control while beading .**

Designs by Julianna C. Hudgins

This design was made using Antique Satin Brass wire with Antique Brass Color Findings and Artistic Wire Wrappers.

NEW COLOR!

antique
satin brass
7, 19, & 49 strand wires

MADE IN USA

Designs by Katie Hacker

Antique Satin Brass colored nylon coating over stainless steel wire

7, 19, and 49 Strand – Antique Satin Brass **EXCLUSIVE!**

Created through our special process, this stainless steel wire is sheathed in a special nylon coating, giving it a soft, supple feel and unique, matte coloring. Leave this wire exposed and use plated findings for added elegance and beauty. The antique satin brass color will coordinate perfectly with the Beadalon antique brass findings and most stamped brass components. Made in USA by Beadalon.

Crimp Beads *NEW*

Crimp Beads offer a secure and professional finish for all types of designs. Use Crimp Beads to create illusion designs showcasing the wire and for a reliable finish. Incorporate Crimp Beads into your design as an accent or spacer bead.

	Size	I.D. mm	O.D. mm	Pack Weight	Plating/ Color	Approx. Pieces Per Pack	Part #

Protect stringing materials from excessive wear with Wire Guardians.
Bead Stoppers™ *NEW*

It's the perfect beading accessory to keep your projects organized and neat. Use the Bead Stopper to prevent beads from falling off the end of the strand. Using alligator clips or sticky tape will either make a mess out of everything you touch or it can kink your stringing material. The Bead Stopper will hold your work securely, and it won't fall off, even with a good tug. You won't go wrong using the Bead Stopper with all of your beading projects. Made in USA.

Finish Flat Memory Wire using the Memory Wire Bending Pliers (opposite page).

Smooth flat memory wire has a brilliant finish that shines like a mirror!

Stainless Steel Remembrance™ MEMORY WIRE

Remembrance™ – Stainless Steel Memory Wire

Remembrance Memory Wire puts fun in fashion. Bead onto this thin, tempered stainless steel wire to create chokers, bracelets, anklets, and rings that make a bold bead statement. Rigid Remembrance Memory Wire is corrosion and tarnish resistant and, like a spring, it snaps back to its original form when expanded and released. Use Memory Wire Shears to cut Memory Wire. Made in USA by Beadalon.

Memory Wire Bending Pliers *NEW EXCLUSIVE!*

The memory wire bending pliers make quick work out of finishing the ends of flat or round memory wire. Make consistent loops on memory wire every time with these pliers. Place the memory wire in between the 4mm and 2mm ends of the pliers then bend in either direction (depending on what size loop you want).

*Use New 18 Gauge German Style Wire for a thicker, more dramatic look.*

German Style Wire

German Style Wire is excellent quality shaping wire, available in several gauges and shapes. This copper and brass core wire has a tarnish resistant coating and the perfect half-hard temper and finish for most jewelry wire wrapping uses. Use square wire wrapped with half-round wire for gorgeous cabochon bezels. Use new 18 gauge German Style Wire for a thicker, more dramatic look or for adding more structural strength.

Beadalon®   **GERMAN STYLE WIRE SHAPES - SUGGESTED USES**

Round
Used for open and closed loop wire wrapping, twisting, coiling, wire forming, and flattening.
Round Pattern
Use these patterns to give texture and style to wire wrapping designs. Use the same way you would use smooth round wire.

Fancy Round
Used the same as round wire, but add this wire to jazz-up a design. It can be used partially or fully in the design. Great for adding scrolls or texture onto round wire.

1/2 Round
Primarily used for banding around square wire. It can also be used for covering round wire, either with the curved or flat side out.

Square
Typically used as the base of wire wrapped designs to hold stones that are banded together with half-round wire. Banding can also be done with Square wire.

Fancy Square
Use this wire for all of the same uses as Square Wire, but this will add multiple reflection surfaces while still allowing for tight banding because of it's square sides.

© Beadalon 2012

Pattern German Style Wire   *NEW* **EXCLUSIVE!**

Until now, pattern wire only existed in precious metals. Half-hard tempered Pattern German Style Wire is available in five distinct patterns and three diameters. Use these patterns to give texture and style to wire wrapping designs ranging from jewelry applications to home décor projects. Use for making rings, bracelets, necklaces and more.

### KNOTTING ELASTIC CORDS USING THE DOUBLE KNOT

❶ ❷

Silky Smooth Drape and Feel, this Cord Looks Great Exposed!

Elasticity Chain *EXCLUSIVE!*

Elasticity Chain is a fun and totally new concept for jewelry design. Use this innovative stretch chain the same way that you use metal chain. Or, wrap the soft, elastic chain around and through beads for a bold new look. You can hang charms and other findings from the open links, and terminate the chain using split rings and other basic findings. Designs made on Elasticity Chain can stretch to fit over the hand just like bracelets made on Elasticity and other stretch cords.

Crimps Tubes for Elasticity and other Stretch Cords

Crimp Tubes for Stretch Cord are longer crimps made specifically to hold slippery stretch cord without knotting. Sized for the typical sizes of stretch cord, large medium and small. Use crimping pliers for the best finish. Use crimping pliers for the strongest hold and most professional finish. For maximum security, add a small amount of bead stringing cement inside the crimp just before crimping.

WildFire® *EXCLUSIVE!*

WildFire beading thread features the strength and durability of DandyLine with a smooth, thermally bonded coating, to create a superior stringing product that cannot be pierced with a needle. Super strong, waterproof, and near zero-stretch, this cord will not fray at the ends which makes it easy to thread through a needle. WildFire is also colorfast - the color will not come-off on fingers like some other cords. This knottable, supple cord is also great for multi-strand seed bead designs using the Spin-N-Bead.

Cell Phone Plugs *NEW*

Made of plastic and offered in two styles, cell phone plugs are the new "must have" accessory. They plug into your mobile phone's headset port and are perfect for dangling beads, charms, or other items. The cup style is perfect for gluing pointy back rhinestones, beads, marbles or other items using BeadFix gel or 2-part epoxy. Tip: Always test on one item prior to attempting a larger group to make certain that the stones, adhesive, and cell phone plug work together.

	Style	Diameter mm	Color	Pieces Per Pack	Part#

Artistic Wire Chain Maille Rings   NEW EXCLUSIVE!

Made from Artistic Wire, these jump rings are precision cut and system matched for diameter and color consistency. Accurate inside diameters retain design aspect ratios, plus, the consistent shape of these rings help maintain a uniform geometric weave. Rings can be opened and closed using the Snub Nose, Regular, or Bent Chain Nose Pliers.

Add texture to Chain Maille designs with the Pattern Chain Maille Rings. Choose from a variety of patterns and sizes necessary for the most popular weaves. You can also use these as a standard jump rings where a fancy patterned ring will add interest to jewelry designs.

A	Large	15.1 (.6")	Assortment	4	A315X-199

Toggle Clasp Assortment *NEW*

Stylish and easy to attach, Toggle Clasps are a great choice for bracelets and necklaces. Simply slip the bar section through the ring for a secure closure.

	Size	Ring O.D. mm	Length mm	Plating/ Color	Sets Per Pack	Part#
B	Medium	10.4 (.409")	14.3 (.563")	Silver Plated	3	A323B-199
C	Medium	10.4 (.409")	14.3 (.563")	Assorted	3	A323X-199

D. Basic & Advanced Chain Maille Booklet *NEW*

Now both Basic and Advanced Chain Maille booklets are combined into one! Author and Chain Maille expert Lauren Andersen guides you through four Basic patterns using 18 gauge rings to explain the essential techniques and weave patterns that are the basis of chain maille: Byzantine/Birdcage, European 4-in-1, Turkish Round, and Full Persian/Foxtail. After you've mastered these four basics, Lauren then guides you through four Advanced techniques: Half Persian, Japanese 12-in-2, Parallel/Helm's Weave, and Dragonscale, to weave like the experts! 7 in wide x 9 in tall, 62 pages.

Bead Fix™ - 2 Part Epoxy *NEW*

BeadFix 2 Part Epoxy is a single use epoxy that eliminates the need for measuring. Simply empty both tubes completely onto a mixing surface (aluminum foil or heavy paper to be discarded after use) mix the two parts together fully and begin gluing. 2 part epoxy is the strongest bond for most gluing applications. Make certain that all parts to be glued are prepped and ready before mixing the epoxy. Pot life (amount of time before adhesive sets up and can no longer be used) is approximately 20 minutes.

	Size	Part #
E	2-Part Epoxy 6g	215A-100

BeadFix 2 Part Epoxy is a single use epoxy that eliminates the need for measuring.

1. Mix both parts together.

2. Apply to parts to be glued.
