1. Following the instructions included with the Tassel Maker, create 2 large tassels (approximately 40 wraps) with the Blue and Silver Tassel Cord. Do not cut the tassel cord into two tassels. Use the tassel loop to make one large tassel with a 6mm Jump Ring. Set aside.

2. Using the Memory Wire Shears, cut a single loop of Memory Wire.

3. Using the Memory Wire Shaping Pliers, create a horizontal closed loop on one ends of the Memory Wire loop by grasping the end of the wire with the smallest mandrel on the Pliers and rolling back towards the side of the wire.

4. Thread on 1 silver spacer bead, 1 Czech glass bead, 1 silver spacer bead, 1 Czech glass bead, 1 silver spacer bead, 1 Czech glass bead, 1 silver spacer bead, 1 Czech glass bead and 1 silver spacer bead.

5. Using the Memory Wire Shaping Pliers, repeat Step 3 to create a closed loop on the other side of the wire.

6. Using Chain Nose Pliers, thread a 6mm Jump Ring through both of the closed loops on the Memory Wire.

7. Before closing the Jump Ring, thread on another 6mm Jump Ring. Close the Jump Ring.

8. Using Chain Nose Pliers, open the 6mm Jump Ring you just added and thread on the 6mm Jump Ring that is attached to one of the prepared tassels. Close the Jump Ring. (BTE8.jpg)

9. Using Chain Nose Pliers, open the loop on the bottom of one of the Dapped & Spring Ear Wires. Thread the loop through the top Jump Ring that connects the Memory Wire Loops. Close the Ear Wire loop.

10. Repeat Steps 2-9 to create a second earring.

11. The finished earrings should look similar to the main image on page 1.

For a Gold Color Earrings:

*Gold Color Large Bracelet Memory Wire – 347A-050

*3 6mm Gold Color Jump Rings – 314A-006

*2 Gold Color Dapped & Spring Ear Wires – 308A-004
