Sterling Silver EZ-Crimp™ Findings **EXCLUSIVE!**

Add romantic flair to designs made on wire with Beadalon exclusive EZ-Crimp findings. Fashioned from sterling silver, these easy-to-use clasps provide a professional, secure finish and crimp directly onto Beadalon 49, 19, or 7 Strand wire (up to .024" diameter).

Beadalon®

EZ-CRIMP INSTRUCTIONS

1 Place a single strand, or a combination of Beadalon wires (up to .024"), all the way inside the hole.

2 Place the smooth portion of the EZ-Crimp finding into the semi-circle of the EZ-Crimp pliers.

3 Squeeze until the coiled wires of the EZ-Crimp pliers begin to close down around the stringing wire.

4 Make an additional crimp (using the previous step) so the entire length of the EZ-Crimp finding closes onto the wire.

© Beadalon 2012

The Beadalon EZ-Crimp Pliers (p. 174) are specifically designed to fit exclusive Beadalon EZ-Crimp Ends and Findings.

Sterling Silver Scrimp® Kit **EXCLUSIVE!**

Simply stated, .925 Sterling Silver Scrimp findings are an innovative screw finding that takes the place of a crimp. A tiny set screw inside holds Beadalon wires securely in place. The complete Scrimp Kit contains its own screwdriver (Base metal) and six Sterling Silver Scrimp Findings with Silver Plated brass screws. Six additional screws are cleverly held within the handle of the screwdriver. Scrimp Findings are easy to use for necklaces, bracelets and anklets. Partially unscrew the screw in the Scrimp Finding, insert Beadalon wire (up to 0.53 mm, 0.021" diameter) into the Scrimp Finding, through a clasp, and back through the Scrimp Finding until the desired loop size is obtained. (Use a Sterling Silver Wire Guardian (p. 100) to lengthen the life of the connection). Then, simply tighten the screw and begin stringing. Repeat steps for the opposite end of your design for a secure, removable, and flexible finish. For a permanent finish, use a partial drop of Bead Fix (p. 165) on the tightened screw. * See (p. 104) for Scrimp Finding Instructions

Sterling Silver Crimp Beads and Crimp Tubes

Crimping is an easy method for finishing Beadalon wire. Sterling Silver Crimp Beads and Tubes maintain the quality level of your precious metal bead designs. Made of .925 Sterling, Crimp Beads/Tubes are simple to attach and provide a secure closure. Note: Flatten Twist Crimp Tubes using flat or Chain Nose Pliers, and not with Crimp Pliers (please see crimping instructions on p. 111).

F	4mm	1.09 (.043")	.925 Sterling	100	449G-011

Sterling Silver Seamed Round Beads

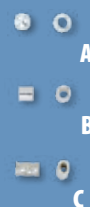

Use these Sterling Silver Seamed Round Beads as beads, or open them up with the Beading Awl (p. 186) to cover Crimp Beads and Tubes. (See instructions at right.) Carefully close the bead with the EZ-Crimp pliers, making sure not to mar the surface of the bead. (Tip: A little electrical tape on the jaw of the EZ-Crimp pliers will help to minimize marring.) Once placed over the crimp, the result is a professional finish.

Sterling Silver Wire Guardian™ Findings

Protect stringing materials from excessive wear. Use Sterling Silver Wire Guardian findings to reduce abrasion from clasps and other sharp-edged components. Use Wire Guardian Findings in the same way you use French wire; the only difference is Wire Guardian findings are rigid. Gold Filled Wire Guardian Findings offer 1/20 14kt Gold for high end designs. For wire diameters up to 0.53mm (.021").

	Hole I.D. mm	Length mm	Size #	Metal	Plating	Pieces Per Pack	Part #

Sterling Silver 'French' Wire

Sterling Silver 'French' Wire, also known as 'Gimp' and 'Bullion,' covers and protects bead cord from friction and breakage at the clasp, fortifying the thread. French Wire provides an elegant professional finish.

	Hole Size	Size	I.D. mm	Use With Cord Sizes	Length Meters	Part #

Sterling Silver French Ear Wires

Create earrings to match your beaded bracelets and necklaces with these selection of Ear Wires, offering a wide variety of finishes and styles. Add dangles to coordinate with necklaces or bracelets to create a chic look.

	Style	Wire Diam. mm	Metal	Pieces Per Pack	Part #
A	Ball	0.63 (.025")	.925 Sterling	6	408G-007
B	Dapped & Spring	0.63 (.025")	.925 Sterling	4	408G-003
A	Ball	0.63 (.025")	.925 Sterling	72	408G-008
B	Dapped & Spring	0.63 (.025")	.925 Sterling	72	408G-004

Sterling Silver Head Pins

Use Sterling Silver Head Pins for making earrings, or drops for necklaces and bracelets. Head Pins have a head at one end that acts as a stop to keep the beads from slipping off. Make the opposite end into a loop using Beadalon Round Nose Pliers. Attach the loop to an earring finding, Remembrance Memory Wire, or a Charm. Great for beads with small holes such as fresh water pearls. Ball Head Pins add a small sterling dot to the design.

	Head Style	Size mm	Length mm	Metal	Pieces Per Pack	Part #
C	Flat	0.6 (.024")	50 (1.97")	.925 Sterling	8	412G-213
D	Ball	0.6 (.024")	50 (1.97")	.925 Sterling	6	412G-253
C	Flat	0.6 (.024")	50 (1.97")	.925 Sterling	72	412G-214
D	Ball	0.6 (.024")	50 (1.97")	.925 Sterling	72	412G-254

Sterling Silver Bails

This is a clever little finding that makes it super easy to craft a necklace or dangle! Sterling Silver Pinch Bails have side pins (Item E) that are designed to insert into the hole of a bead, briolette, or pendant. Once closed or "pinched" the pins hold the object in place. Great for use with Swarovski® components. Use item F to create a bail on cord, leather or chain. Item G features an open ring at the bottom.

Pinch Bail

	Style	I.D. mm	Metal	Pieces Per Pack	Part #
E	Plain	10 (0.40")	.925 Sterling	1	427G-210
E	Plain	10 (0.40")	.925 Sterling	20	427G-211

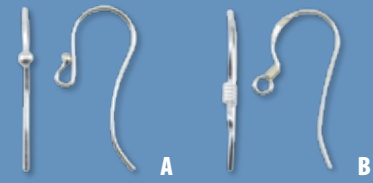

Bail with Ring

	Style	I.D. mm	Metal	Pieces Per Pack	Part #

Stainless Steel Coiled Wire Beads

Stainless Steel Coiled Wire Bead adds interest to stainless steel designs, size is approximate and each bead will vary in hole size and overall size.

	Shape	Size mm	Pieces Per Pack	Part #
H	Round Coiled Wire	9 (.354")	8	519S-062
H	Round Coiled Wire	9 (.354")	144	519S-063

Bead Bumpers™ *EXCLUSIVE!*

Use Bead Bumpers instead of knots to separate and add interest to designs. Simply string one Bead Bumper in between each bead of a design to space beads evenly. Once incorporated, the Bumpers look similar to a knot and keep the beads from rubbing against one another. Since Bead Bumpers are made of a special stretch material, they can be added to Beadalon wires up to .024" (.06 cm) in diameter. These Bead Bumpers are also great for Memory Wire designs where you want to have a knotted, or tin-cup style look. Customize earring findings with Bead Bumpers to hold beads in place.

SCRIMP FINDING INSTRUCTIONS

Begin by loosening screw to allow wire to go through the Scrimp Finding.

Feed the wire through the Scrimp Finding, onto a Wire Guardian [optional] (p. 107), attach a clasp, and finally back through the Scrimp Finding.

Tighten screw for a secure and clean finish.
TIP: For an extra strong Scrimp Finding, add a small amount of BeadFix (p. 165) to the screw.

Scrimp® Findings **EXCLUSIVE!**

Simply stated, Scrimp Findings are an innovative screw finding that takes the place of a crimp. A tiny set screw inside holds Beadalon wires in place. The complete Scrimp Kit contains its own screwdriver and extra supply of Scrimp Findings with screws. Additional screws are cleverly held within the handle of the screwdriver. Scrimp Findings are a cinch to use for necklaces, bracelets and anklets. Just partially unscrew the screw in the Scrimp Finding, insert Beadalon wire into the Scrimp Finding, through a clasp, and back through the Scrimp Finding (until the desired loop size is obtained). Use a Wire Guardian where extra abrasion is likely to occur. (Magnetic Scrimp Finding does not loop back through the finding). Simply tighten the screw using the provided screwdriver and begin stringing. A secure – and flexible – finish!

Scrimp Findings - Kit

	Shape	Pieces Included	Extra Screws Included	Metal	Plating/Color	Part #
A	3.5mm Oval	6	6	.925 Sterling*	N/A	407G-002
B	3.5mm Magnetic	4	3	Stainless Steel	N/A	307S-110

Loop Crimps

Use these Loop Crimps to professionally end Beadalon wires, up to 0.61 mm (.024") items I and K, and up to 0.91mm (.036") wire for item J. Insert wire into the end then crimp with the Standard Crimp Tool. This finding is good for use with any Clasp or S-Hook. The Loop Crimp can also be used as a Bail or as the intersection for a Y-Necklace.

Wire Guardians™

Protect stringing materials from excessive wear with Wire Guardians. Reduce abrasion from clasps or other sharp-edged components. Perfect for use with the Beadalon Watch Faces, described below. Use Wire Guardians in the same way you use French Wire; the only difference is the Wire Guardian is rigid. Size #1 is for wire diameters up to 0.53mm (.021") and size #2 is for wires up to 0.66mm (.026") in diameter.

Watch Faces

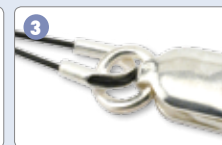

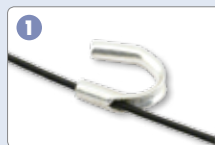

Achieve unique beaded watch bracelets and pendants in a variety of styles with this selection of Watch Faces. Japanese movements are the heart of these quality watches, as well as a long life battery. Loops on these watches are perfect for use with the Wire Guardians sold above. Use 1, 2 or all 3 of the loops on these watches to connect beaded designs.

Crimp Beads

The Beadalon Sterling Silver Crimp Bead is the first of its kind to be introduced in the beading market. Crimp Beads offer a secure and professional finish for all types of designs. Use the handy chart (p. 110) to find the perfect match for diameters of Beadalon 49 Strand, 19 Strand, and 7 Strand wires, and the correct Crimp Tools. Use Crimp Beads to create illusion designs showcasing the wire and for a reliable finish. Incorporate the Crimp Bead into your design as an accent or spacer bead.

CRIMPING INSTRUCTIONS

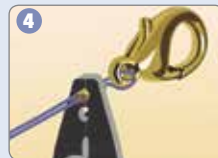

1 Feed one Crimp Bead onto the Beadalon wire, then loop it through a Clasp and back through the Crimp. Be sure wires are side by side, not crossed.

2 Place the crimp in the OUTER jaw of the Crimp Tool, make one firm compression. This will shape the Crimp into an oval, keep the wires parallel.

3 Place the Crimp Bead into the crescent-shaped groove (inner jaw) of the Crimp Tool. Make one firm compression.

4 Place the Crimp into the tool's semi-circle groove (outer jaw), turn it 90° and make another compression until the Crimp Bead is nicely rounded.

5 String the first bead, then cut the excess wire with the Beadalon Flush Cutter.

6 String the remaining beads and repeat steps 1, 2, and 3 on the opposite end to attach the other side of the clasp to complete the design.

Finishing multi-strand designs with Cones

Item G shown enlarged.

Bead Tips

Single-Cup and Double-Cup Bead Tips add a professional look to designs strung on Beadalon Wires and Thread. After you've finished stringing, string into Bead Tip. Make sure the knot or crimp is large enough not to pull through the hole. Attach Bead Tip to a finding by carefully closing the "arm" onto a Jump Ring, Spring Ring, or directly to a Clasp. Double-Cup Bead Tips cover the knot or crimp. Use Beadalon Bead Stringing Glue (p. 164) to secure thread in Bead Tips.

	Style	I.D. mm	Plating/ Color	Pieces Per Pack	Part #
A	Double	0.70 (.028")	Silver	16	302B-004
B	Double	0.70 (.028")	Gold Color	16	302A-004
A	Double	0.70 (.028")	Silver	144	302B-006

C	Single	0.97 (.038")	Silver	144	302B-003
D	Single	0.97 (.038")	Gold Color	144	302A-003

Cones

These base metal Cones are great for making earrings, necklaces and bracelets. Use German Style Wire or Artistic Wire to make multiple connections inside the Cone (see instructions at left) also great for chain tassels.

	Size	I.D. mm	Plating/ Color	Pieces Per Pack	Part #
E	12.2mm	3.75 (.148")	Silver	4	357B-010
F	12.2mm	3.75 (.148")	Gold Color	4	357A-010

F	12.2mm	3.75 (.148")	Gold Color	144	357A-011

Bead Caps

Bead Caps offer color, texture and a lacy look to beaded designs. Use them with or without beads, in combination with each other, or at the top or bottom of a bead. Great for capping off chain tassels or as the structure for round chandelier earrings.

Upper Clasp™

Premium European Clasps embellished with Austrian Crystals, intricate piercings, imitation pearls, and cameos.

Upper Clasp findings are fashionable, premium quality findings that mimic the high-end look, feel, and function of more costly, precious metal clasps. A combination of genuine Austrian crystals, high quality imitation pearls and cameos, and intricate piercings make each clasp one-of-a-kind. Use an Upper Clasp to transform your design from a bracelet or necklace into a true keepsake, or make Upper Clasp the focal point of your design. All Upper Clasp findings are Made in Europe from nickel free components and have a brilliant electroplated Nickel-free Gold or Rhodium finish.

Upper Clasp **EXCLUSIVE!**

Design by Laura Timmons

Lobster Clasps

Like the firm grip of a lobster claw, Beadalon Lobster Clasps clamp down and won't let go. The moving pincer is spring operated and reliable. Use in combination with Beadalon Tags, Jump Rings, Solid Rings and Split Rings for dependable, strong connections. Two-ring Lobster Clasps come with both rings attached and soldered, eliminating the need for Jump Rings – such an easy solution.

EZ-Lobster Clasps

EZ Lobster Clasps eliminate the need to add a Jump Ring to connect your clasp - shoring up your designs and keeping them clean and neat. Thread your chain, wire or jump ring onto the open loop, and use round nose pliers to pull the loop closed. A simple idea with big results. This is a great clasp to use with Quick Links.

EZ-LOBSTER™

Use Round Nose Pliers
(p. 178) to close
EZ-Lobster Clasps.

Design by Margot Potter

Hook & Eye Clasps and S-Hooks are easy to attach and offer a strong connection.

Hook & Eye Clasps

Use Hook & Eye Clasps to add an elegant touch. The Hook and Eye form a clasp with superb holding power.

	Style	Clasped Length mm	Plating/ Color	Sets Per Pack	Part#
A	Small	18.7 (.736")	Silver	13	313B-004
B	Medium	23.8 (.937")	Silver	13	313B-001
C	Fancy	22 (.866")	Silver	3	313B-020
D	Medium	23.8 (.937")	Gold Color	13	313A-001
A	Small	18.7 (.736")	Silver	144	313B-005
B	Medium	23.8 (.937")	Silver	144	313B-002
C	Fancy	22 (.866")	Silver	144	313B-021
D	Medium	23.8 (.937")	Gold Color	144	313A-002

S-Hooks

Simple to use and just the right size for bracelets, delicate chokers and necklaces crafted from small beads. Close one end of the S-Hook for a permanent connection. S-Hooks are perfect for using with EZ-Crimp Ends.

	Size	Length mm	Plating/ Color	Pieces Per Pack	Part#
E	Small	12.48 (.491")	Silver	7	313B-010
E	Small	12.48 (.491")	Silver	144	313B-011

Screw Clasps

Tighten both ends of screw clasps for a secure finish. Loops are free to spin allowing design to maintain look. Choose either Barrel or Torpedo style depending on design, both provide a secure closure.

Barrel

	Size	Length mm	Plating/ Color	Sets Per Pack	Part#
F	Small	8.0 (.315")	Silver	8	301B-001
G	Medium	9.5 (.374")	Silver	6	301B-003
H	Small	8.0 (.315")	Gold Color	8	301A-001
I	Medium	9.5 (.374")	Gold Color	6	301A-003
F	Small	8.0 (.315")	Silver	144	301B-002
G	Medium	9.5 (.374")	Silver	144	301B-004
H	Small	8.0 (.315")	Gold Color	144	301A-002
I	Medium	9.5 (.374")	Gold Color	144	301A-004

Torpedo

	Size	Length mm	Plating/ Color	Sets Per Pack	Part#
J	Small	10.0 (.393")	Silver	8	330B-001
K	Small	10.0 (.393")	Gold Color	8	330A-001
J	Small	10.0 (.393")	Silver	144	330B-002
K	Small	10.0 (.393")	Gold Color	144	330A-002

Filigree Clasps

Sharply detailed higher quality Filigree Clasps for double and triple strand designs give a definitive flair to multi-strand pearl and bead designs.

	Strand	Length mm	Plating/ Color	Sets Per Pack	Part#
A	Double	13.0 (.511")	Silver	5	303B-007
B	Triple	13.0 (.511")	Silver	5	303B-009
C	Double	13.0 (.511")	Gold Color	5	303A-007
A	Double	13.0 (.511")	Silver	144	303B-008
B	Triple	13.0 (.511")	Silver	144	303B-010

Filigree Style Clasps

Filigree Style Clasps are great for pearl and beaded bracelets. Sometimes referred to as 'buckles,' these quality clasps snap snugly together.

	Strand	Length mm	Plating/ Color	Sets Per Pack	Part#
D	Single	16.0 (.629")	Silver	144	303B-002
E	Double	15.0 (.590")	Silver	144	303B-004
F	Triple	15.0 (.590")	Silver	144	303B-006
G	Single	16.0 (.629")	Gold Color	144	303A-002
H	Double	15.0 (.590")	Gold Color	144	303A-004
I	Triple	15.0 (.590")	Gold Color	144	303A-006

Slide Clasps

Two and three ring Slide Clasps feature a secure spring friction mechanism. To open, simply slide apart. A great addition for multi-strand designs.

	Strand	Length mm	Plating/ Color	Sets Per Pack	Part#
J	Two Strand	16.6 (.652")	Silver	1	355B-010
K	Three Strand	21.4 (.844")	Silver	1	355B-012
L	Two Strand	16.6 (.652")	Gold Color	1	355A-010
M	Three Strand	21.4 (.844")	Gold Color	1	355A-012
J	Two Strand	16.6 (.652")	Silver	72	355B-011
K	Three Strand	21.4 (.844")	Silver	72	355B-013
L	Two Strand	16.6 (.652")	Gold Color	72	355A-011
M	Three Strand	21.4 (.844")	Gold Color	72	355A-013

Crimp Friction Clasps

The slight curve creates just enough friction for the one side of the clasp to slide into and firmly hold the other. No hooks, no catches, no bulk. These Friction Clasps add a streamlined look. Crimp or glue to Beadalon Wire, Cord or Chain up to 1mm in diameter. Bend solid portion to increase holding friction.

	I.D. mm	Length mm	Plating/ Color	Sets Per Pack	Part#

EZ-Tie™ Ends *NEW! EXCLUSIVE!*

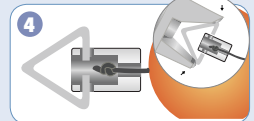

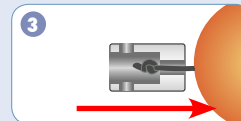

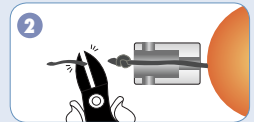

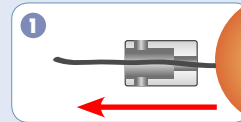

EZ-Tie Ends are ideal for securing Beadalon wire to clasps without tools. These strong and secure clasps are easy to use and conceal the wire ends for a stylish look. The Cone & Spring style works by snaring the spring inside the cone - careful, once the spring snaps into place it cannot be removed. The Tube & Ring is used by making a knot in the stringing material, which then snags on the opening preventing it from sliding back out. Works well with most clasps to add a touch of flair!

	Style	Size mm	Plating/ Color	Sets Per Pack	Part#
A	Cone w/ Spring	11.75 (0.46 in)	Silver	1	300B-060
B	Cone w/ Spring	11.75 (0.46 in)	Gold Color	1	300A-060
C	Tube w/ Tri Ring	7.85 (0.31 in)	Silver	4	300B-030
D	Tube w/ Tri Ring	7.85 (0.31 in)	Gold Color	4	300A-030
A	Cone w/ Spring	11.75 (0.46 in)	Silver	9	300B-061
B	Cone w/ Spring	11.75 (0.46 in)	Gold Color	9	300A-061
C	Tube w/ Tri Ring	7.85 (0.31 in)	Silver	18	300B-031
D	Tube w/ Tri Ring	7.85 (0.31 in)	Gold Color	18	300A-031

The spring snaps into place permanently when pulled up by stringing material through the cone.

 knot into each finding

something similar to the cord ends
 with a hole in the top/new bottom

Designed by Wyatt White

**Beadalon®****USING THE JUMPRING OPENER**

Slip the tool (ring) onto your index finger of your non-dominant hand, hold the ring in place with your thumb. Use a chain nose pliers to grasp jump ring (with your dominant hand) and slide the jump ring into the slot.

Twist the pliers to open the jump ring. Attach the jump ring to project then repeat the directions in reverse order.

Quick Links™

Quick Links **EXCLUSIVE!**

Beadalon Quick Links can be used in conjunction with Quick Links Chain (p. 91) to create contemporary chain designs. Use Connectors and Jump Rings to link together different components to create one-of-a-kind chain in different lengths. Hang charms, beads, or crystal components with jump rings, connectors or bails. Complete Quick Links designs with the EZ-Lobster Clasps (P. 121).

Connector Link

Quick Links:

- Connect
- String
- Attach
- Combine

Design by Fernando Dasilva

Hang Charms, Beads, or Crystal Components with Jump Rings, Connectors, or Bails to create distinctive jewelry.

Extension Chains

Lengthen conventional closure necklace styles with Extension Chains. Each extension adds up to 2" (5.08 cm) to designs. Tear drop, ball and heart accents add a professional looking finishing touch. Spring Ring and Lobster Clasp Extension Chains can be attached to a finished necklace clasp to lengthen. For a designer look, use the Extension Chain with Lobster Clasp. See more Chain on (p. 90).

	Style	Length mm	Plating/ Color	Pieces Per Pack	Part#

Cord Ends with Extension Chains

Make necklaces longer or shorter to suit style and taste. Glue Rubber, Leather, Imitation Leather, Satin, or other cords into Light Tube Cord Ends with BeadFix Gel or E-6000 glue. Finish Suede Cord, Artistic Wire Mesh, or Organza ribbon with C-Crimp Extension Chain Ends. All Beadalon Cord Ends with Extension Chains are made of brass and lengthen necklaces up to 2" (5.08 cm).

Light Tube

Spring Cord End Finishing

Choose the size that fits your cord. Insert cord as far as desired using a bit of glue. Slowly close the last loop slightly with pliers; turn and close slightly again until a uniform smaller circle closes around cord.

L

M

Cord Ends

Finish Rubber, Jewelry Cable, and Leather designs with Cord Ends. Affix metal ends to cord with E6000 glue or Bead Fix Gel. Attach Split Rings, Jump Rings, Solid Rings and your favorite Clasp to complete your design. Heavy Tube Cord Ends are thick walled; Light Tube Cord Ends are thin walled. All Cord Ends are made of plated base metal.

C-Crimp Cord Ends

C-Crimp Ends have small teeth that bite onto Suede, Imitation Suede or Organza Ribbon. Easily attach Chain for interesting multi-media designs. Use Fold-Over Cord Ends for Suede, Cable, Leather, Imitation Leather, Organza Ribbon, Velour tubing or Rubber Tubing. Glue, then fold each tab over. Attach clasp to the loop. Fits cord diameters up to 4.0mm; and suede up to 4.0mm in width.

C-Crimp

Fold-Over Cord Ends are ideal to finish Suede, Cable, Wire Mesh, Leather, Imitation Leather, Organza Ribbon, Velour Tubing, and Rubber Tubing.

Connectors

Create exquisite chandelier jewelry with these lovely components. Add appeal and movement to necklaces. Combine with wire-wrapped beads to create intriguing necklaces and bracelets. Use Connectors as spacers for multi-strand necklaces with large beads. Filigree Connectors (items A-G, opposite page) feature twisted wire carefully shaped and soldered into place, creating a unique and versatile design.

Spacers

Ideal for making multi-strand beaded necklaces and bracelets, use Spacers with Beadalon 2 and 3-Strand Filigree and Slide Clasps. Spacers add continuity to designs, and are ideal when showcasing the beauty of lustrous wire like Beadalon Silver Color, Gold Color, Satin Silver Color, or Satin Gold Color.

Ear Wire Beading Hoops

Beading Hoops are a quick and easy way to design a wide variety of beaded hoop earrings. Simply slide on beads or dangles. Use Bead Bumpers as stops for designs. Items B- E and G-I use Chain Nose Pliers to bend the end into a slight angle. The bend feeds through the opposite hole to act as a catch. Wire diameter is 0.68mm (.027").

	Style	Hoop Diam. mm	Plating/Color	Pieces Per Pack	Part#

Ear Wires aren't just for earrings -try linking Ear Wires together in creative ways to design dazzling jewelry!

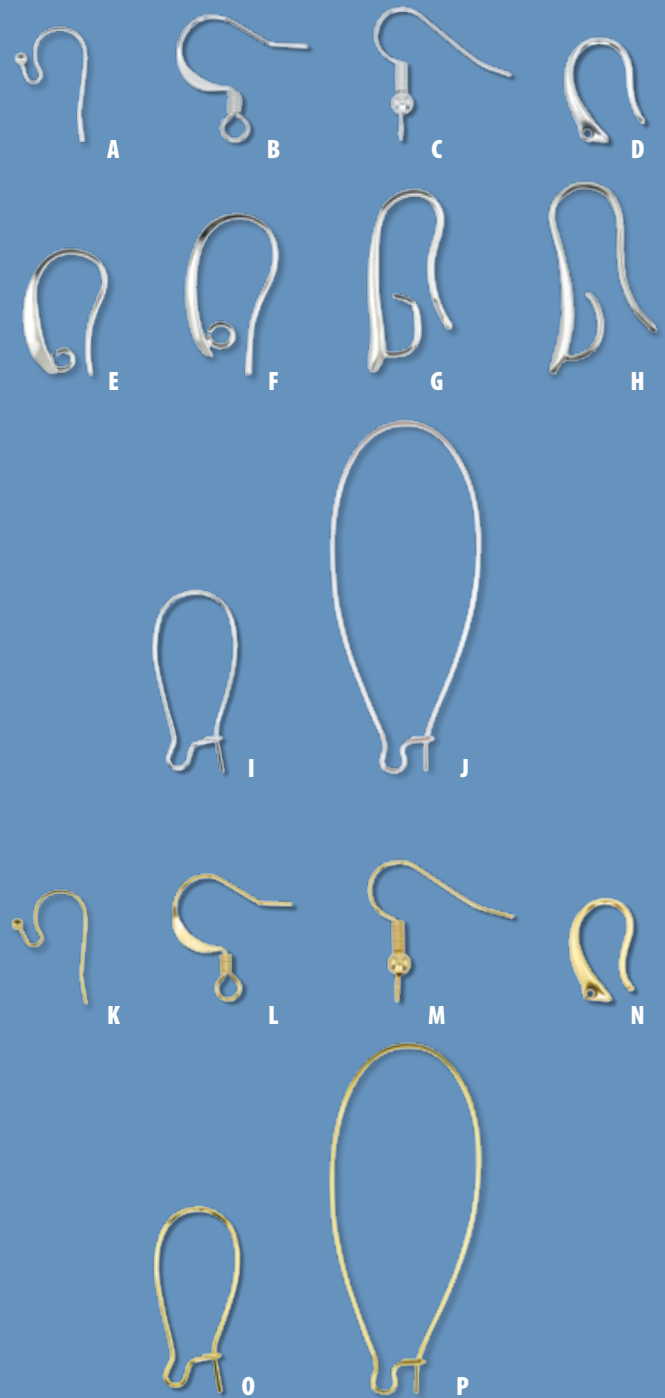

Designs by Fernando Dasilva

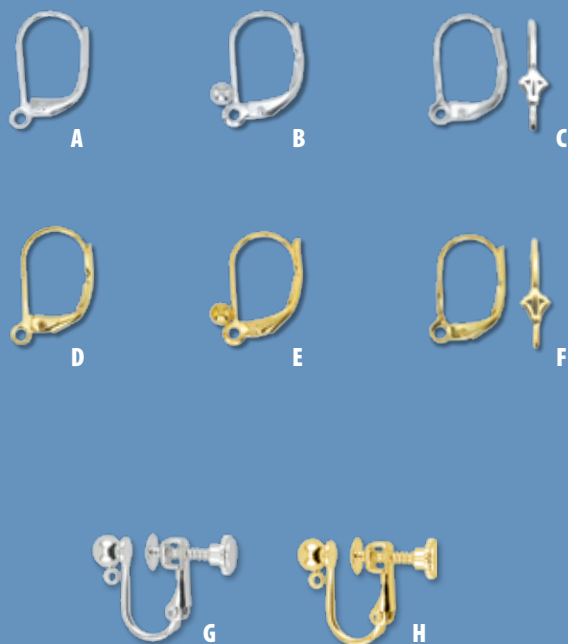

Customize Ear Wires with beads, then hold in place with Bead Bumpers (p. 103)

Ear Wires

Create earrings to match your beaded bracelets and necklaces with this selection of Ear Wires. We offer a wide variety of styles and finishes. Kidney, French, Modern and Paisley Ear Wires feature quality plating and interesting styles. Add dangles to coordinate with necklaces or bracelets and create a chic look.

Earring Hinge/Pinch Bail

Hinge Earrings are easy to wear and use! These earrings offer the security of having a snap-close feature without the need for an earnut. Each has an open jump ring for easy attachment. Pinch Bail Earrings offer the ease of attaching a bead or any component that has a hole. Simply open the pinch bail and then close pegs into the holes of the bead or component. Pinch Bail Earrings make quick work of irregularly shaped crystal components.

	Style	Size mm	Plating/ Color	Pieces Per Pack	Part#
A	Hinge Round	15 (0.59")	Silver	6	308B-150
B	Hinge Oval	17 (0.67")	Silver	6	308B-154

Head Pins

Use Head Pins for making earrings, or drops for necklaces and bracelets. Head Pins have a flat, round, or ball-star head. Make the opposite end into a loop using Beadalon Round Nose Pliers then attach to design. The 0.5mm Head Pins are great for beads with small holes such as fresh water pearls.

Head Pins

Eye Pins

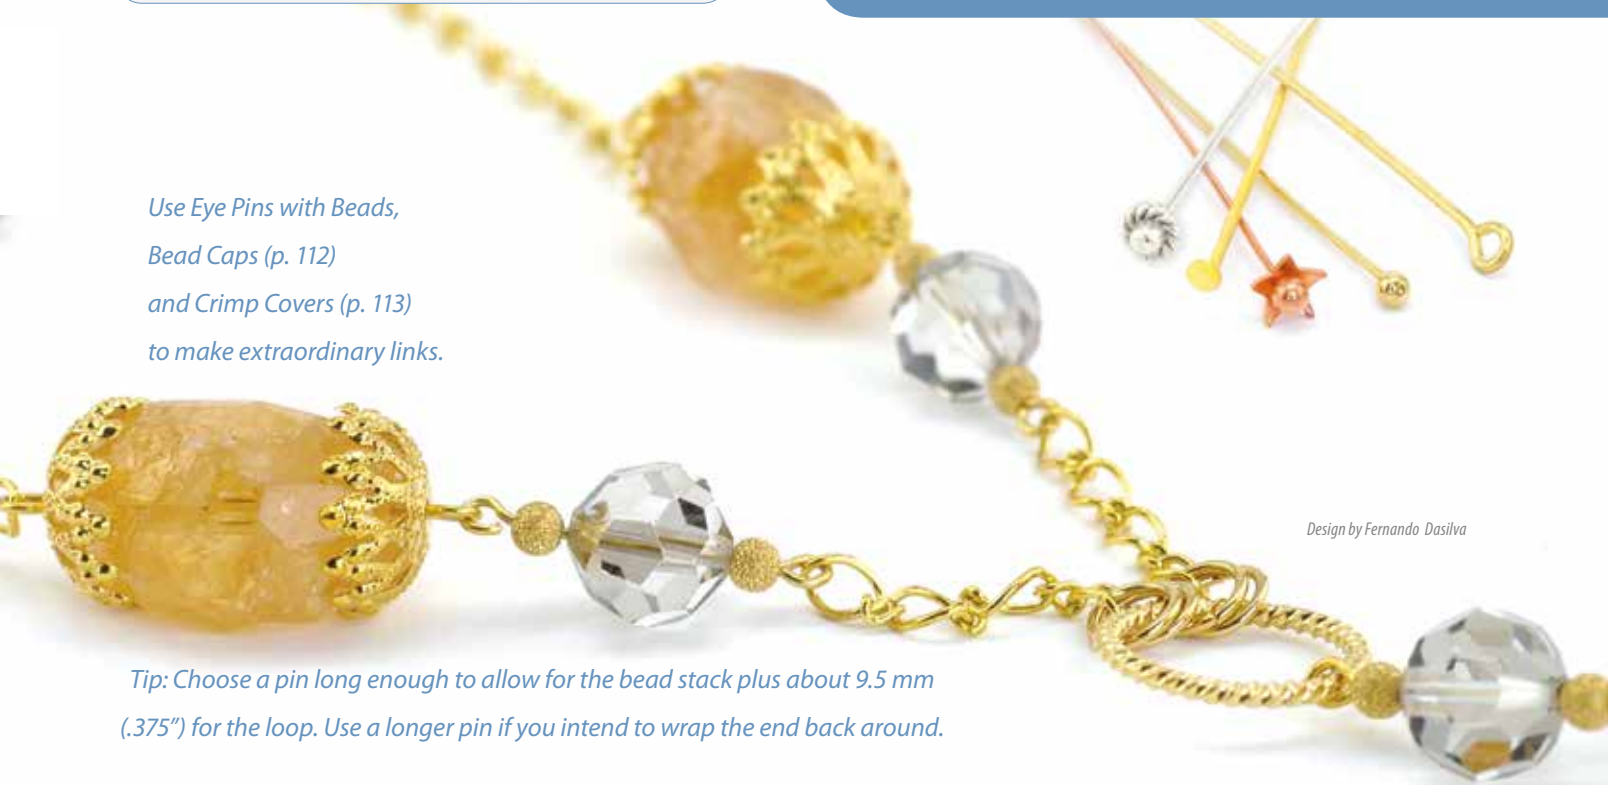

Use Eye Pins for making earrings, or drops for necklaces and bracelets. Eye Pins have a loop (eye) at one end that acts as a stop to keep the beads from slipping off. Make the opposite end into a loop using Beadalon Round Nose Pliers then attach to design. The 0.5mm Eye Pins are great for beads with small holes such as fresh water pearls.

Eye Pins

	Head Style	Diameter mm	Length mm	Plating/Color	Pieces Per Pack	Part #
A	Loop	0.5 (.020")	50 (1.97")	Silver	108	310B-013
B	Loop	0.5 (.020")	50 (1.97")	Gold Color	108	310A-013
C	Loop	0.7 (.028")	50 (1.97")	Silver	72	310B-113
D	Loop	0.7 (.028")	50 (1.97")	Gold Color	72	310A-113

G	Loop	0.7 (.028")	38.1 (1.5")	White	2,960	310E-012
H	Loop	0.7 (.028")	50.8 (2.0")	White	2,300	310E-016
I	Loop	0.7 (.028")	50.8 (2.0")	Gilt	2,300	310F-016

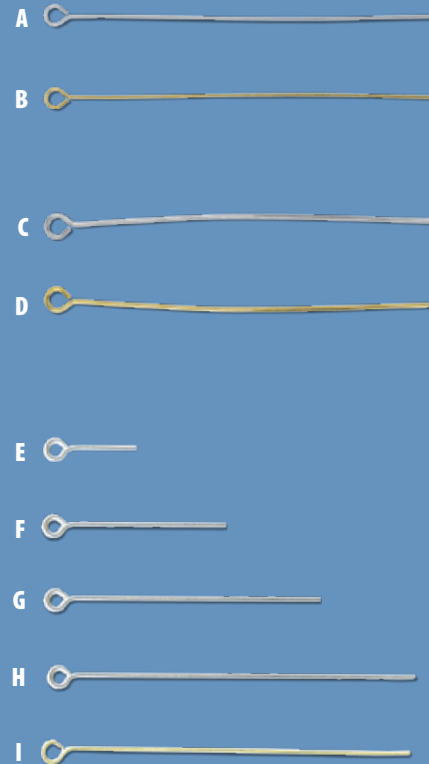

Use Eye Pins with Beads,
Bead Caps (p. 112)
and Crimp Covers (p. 113)
to make extraordinary links.

Tip: Choose a pin long enough to allow for the bead stack plus about 9.5 mm (.375") for the loop. Use a longer pin if you intend to wrap the end back around.

Design by Fernando Dasilva

Use Scrimp Memory
Wire Ends to secure
beads for drops
and earrings

Attach Bails using BeadFix Squares (p. 165). Bails can be used from either side, the left bail is centered over attached disc, the right bail is flush with back of crystal.

Glue-On Bails **EXCLUSIVE!**

Glue on bails can be used on any flat surface stone, pendant, or other object. Use small for earrings and the large for pendants. Use BeadFix adhesive, BeadFix Gel, E6000, or BeadFix Adhesive Squares on these custom findings. Larger bail has ample surface area for adhesion of large cabochon cut stones or flat-back Austrian Crystals. Top of bail can be used showing or concealed (behind larger items). Simply affix with bail in the flat position on the back of the stone. Grooves in the metal help with adhesion and offer design on the portion that is exposed.

	Style	Size mm	Plating/ Color	Pieces Per Pack	Part#
A	Small	6 x 11 (.24" x .43")	Silver	6	327B-312
B	Large	10 x 23 (.39" x .91")	Silver	3	327B-310

Pendant Bails

Clip-on Pedant Bails make quick work of adding a bead or pendant to chain and cord necklaces. Slide Cord or Chain through the bail opening, then clip the pendant onto a Jump Ring attaching the Bail for a finished look in a snap. Fancy Bails offer a solid ring for attaching dangles. See Chain (p. 90-95).

	Style	Length mm	Plating/ Color	Pieces Per pack	Part#

H	Fancy	10.0 (.393")	Gold Color	144	327A-036

Pinch Bails

Pinch Bails are a clever little finding that makes it easy to create a necklace or dangle! Use with any bead approximately 5mm to 8mm. Simply squeeze or pinch the outer portion of the finding until the pointed ends begin to enter the holes of the bead and slowly close until both points are inside the bead hole. Also great for Swarovski® Pendants & Chandelier parts. Pinch Bail Pliers (p. 179) make easy work of closing Pinch Bails.

	Size mm	Plating/ Color	Pieces Per Pack	Part #
I	10 (0.40")	Silver	10	327B-024
J	10 (0.40")	Gold Color	8	327A-024
I	10 (0.40")	Silver	144	327B-025
J	10 (0.40")	Gold Color	144	327A-025

Pinch Bail Components

Pinch Bail Components offer all the features of Pinch Bails with the added room of longer "arms" and with a dangle ring as well as a hanging ring. Use these components with larger and more avant garde shaped stones and crystals. The Triangle style component is perfect for heart shaped crystals and stones with tiny heart accents and a small hole for gluing a tiny rhinestone if desired.

	Style	Length mm	Plating/ Color	Pieces Per pack	Part#
K	Round	21 (.827")	Silver	6	327B-150
L	Oval	35 (1.38")	Silver	4	327B-154
M	Triangle	12 (.472")	Silver	8	327B-158

M	Triangle	12 (.472")	Silver	144	327B-159

Pinch Bail Pendants

Pinch Bails are a well engineered little finding that makes it easy to create a necklace or dangle! Use with any bead approximately 5mm to 8mm. Open bail then simply squeeze or pinch the outer portion of the finding until the pointed ends begin to enter the holes of the bead and slowly close until both points are inside the bead hole. Also great for Swarovski® Pendants & Chandelier parts. Cut off bail and use as earrings.

	Size mm	Plating/ Color	Pieces Per Pack	Part #

To use a Pinch Bail Pendant as an earring or charm, simply cut the bail with cutters and discard.

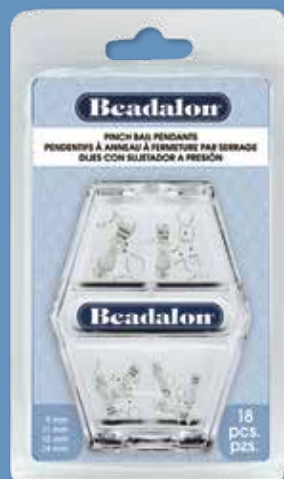

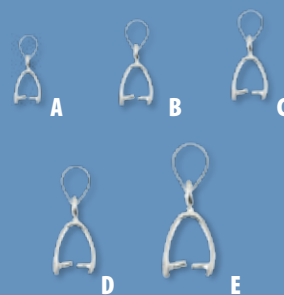

Enhancer Bails

Enhancer Bails are used to attach and remove from existing necklaces, allowing for more versatility. Use wire to wrap gemstones, crystals, and other items onto the Enhancer Bails, then attach and remove from necklaces. Use several Enhancer Bails with drops to add bling or pizzazz to plain strands of gemstones or pearls. Ball-style Enhancer Bails are used to attach to individual beads.

Bead Enhancer Bails make it easy to add dangles to existing necklaces.

F

Beadalon®

PINCH BAIL PENDANT INSTRUCTIONS

1 Use Chain Nose Pliers to open bail enough to fit bead or pendant.

2 Close the bail by pinching it together with your fingers. Be sure to align the pegs with the hole of the bead or pendant.

Vari-Pack Sizes

Items G - M open

Vari-Pack Includes Small Flower,
Large Flower, Heart and Oval.

Pearl Shorteners

Pearl Shorteners are a great way to utilize longer strands of pearls or any other type of bead necklace. Simply catch both strands inside of the oval shortener at the desired length, or use with two strands of beads or pearls for a double strand. The Figure 8 Shortener is smaller and can be used on pearls or other beads in the same way as the oval with a smaller profile. Both contain a locking mechanism as well as a safety latch.

	Style	Length mm	Plating/ Color	Pieces Per pack	Part#
A	Oval	22.0 (.866")	Silver	2	353B-210
B	Figure 8	16.0 (.630")	Silver	2	353B-220
A	Oval	16.0 (.630")	Silver	36	353B-211
B	Figure 8	16.0 (.630")	Silver	36	353B-221

Key Rings

Key Rings in designer shapes make more interesting foundations. Give your customers more variety with these sturdy and shapely Key Rings. The assortment contains one each of the four designs.

	Size mm	Style	Plating/ Color	Pieces Per Pack	Part#
C	33 (1.29")	Small Flower	Rhodium	4	320W-010
D	40 (1.57")	Large Flower	Rhodium	4	320W-014
E	36 x 32 (1.42" x 1.26")	Heart	Rhodium	4	320W-018
F	37 x 28 (1.46" x 1.10")	Oval	Rhodium	4	320W-022
G	Assorted	Flowers, Heart, Oval	Rhodium	4	320W-004

Design by Fernando Dasilva

Pin Backs

Beadalon Pin Backs have three large holes in the base plate to allow for easy wire wrapping or gluing. Use BeadFix adhesive squares (p. 165) for quick and easy Pin Back jewelry or use wire and beads together for beautifully decorated pins.

	Length mm	Plating	Pieces Per Pack	Part#
H	25 (1")	Rhodium	10	356W-010

Designs by Fernando Dasilva

Ring Blanks **NEW!**

These adjustable Ring Blanks each provide a different setting for creativity. The Beading Disc style has multiple holes for stringing or wiring components, beads, or other findings. The Petal and Heart styles provide ample room for wiring or stringing to create rings with style.

	Style	Adjustable	Color/ Plating	Pieces Per Pack	Part #
A	Disc w/ Holes	Yes	Rhodium	3	336W-110
B	Petals	Yes	Rhodium	3	336W-114
C	Hearts	Yes	Rhodium	3	336W-122

Bling Rings

One of the hottest items on the market today is the Bling Ring – a finger ring with smaller rings for attaching multiple dangles. For maximum bling add extra Jump Rings, Tags, and other findings to attach more items once the loops are filled. Bling Rings are Rhodium plated for long lasting wear.

	# of Loops	Adjustable	Color/ Plating	Pieces Per Pack	Part #
D	1	No	Rhodium	2	336E-010
E	5	No	Rhodium	1	336E-014
F	9	Yes	Rhodium	1	336E-018
G	10	Yes	Rhodium	1	336E-022
D	1	No	Rhodium	144	336E-011
E	5	No	Rhodium	72	336E-015
F	9	Yes	Rhodium	72	336E-019
G	10	Yes	Rhodium	72	336E-023

Beadalon®**USING A HAIR CRIMP**

© Beadalon 2012

Hair Crimp *NEW! EXCLUSIVE!*

Hair Crips are a large metal crimp with a rubberized center and are great for Hair/Jewelry Fashion. Use a small crochet hook or other thin hook (Hook Not Included) to pull a small amount of hair into the crimp, leaving enough room inside of the crimp for your design. We suggest using Polyester Sparkle Thread, Metallic Beadalon Wire, beads, and feathers. Insert your design into the crimp then gently squeeze the crimp onto the hair and the stringing material holding your design. It is best to crimp close to the scalp. To remove, carefully squeeze the crimp from the flattened ends to re-open the crimp.

	Diameter mm	Plating/ Color	Pieces Per Pack	Part#
A	5 (0.20 in)	Black	18	341C-050

Stick Pin with Beading Disc *NEW!*

The Stick Pin with Beading Disc is great for use on coats, sweaters, or lapels. Use Beadalon Stringing Wire, Artistic Wire, or other types of stringing materials to fashion beads, findings and other parts onto the disc attached to this finding. The disc has two holes that make stringing and wire wrapping easy - fill it or wrap it, then wear it! Pin comes with a closure for the sharp point.

	Length mm	Style	Plating/ Color	Pieces Per Pack	Part#
B	67 (2.65 in)	Disc	White	2	356W-200

Hair Findings

Use jump rings or Quick Links Connectors to attach charms, beads or crystals to make fun and functional hair twists. To use: gather the hair in a ponytail, wrap finding around ponytail until hair is in a bun, then poke the finding down into the bun for a secure hold. Best for longer hair styles.

	Length mm	Style	Plating/ Color	Pieces Per Pack	Part#
C	76.2 (3.0")	Victorian	Silver	2	341B-010
D	76.2 (3.0")	Victorian	Gold Color	2	341A-010
C	76.2 (3.0")	Victorian	Silver	36	341B-011
D	76.2 (3.0")	Victorian	Gold Color	36	341A-011

Memory Wire End Caps

Finish off Remembrance Memory Wire designs with End Caps for a professional look. End Caps are open on one side to accommodate Remembrance (p. 28-29) and Plated Steel Memory Wire (p. 30-31). End Caps with Rings are a fun way to dangle Charms. Secure the End Cap and last few beads with BeadFix adhesive for a fast and easy finish. **Tip:** To add strength to any glue joint, use sandpaper on the end of the Memory Wire before gluing.

Memory Wire End Caps - Variety Pack **NEW!**

	3 mm Ball	4 mm Ball	Corrugated	Sparkle	Plating/ Color	Total Pieces	Part#
P	24	24	12	12	Silver	72	317B-310

Included in each pack:

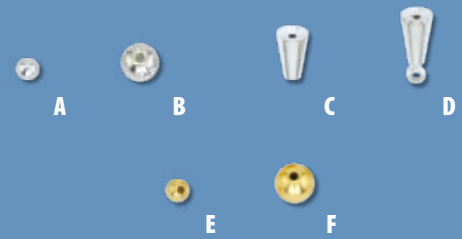

Scrip® Findings - Memory Wire Ends **EXCLUSIVE!**

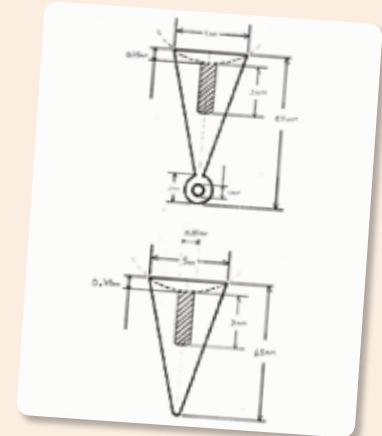

Scrip Findings are an innovative screw finding that takes the place of a looped end. A tiny set screw inside holds Memory Wire wire in place. Scrip Findings are a cinch to use for necklaces, bracelets and anklets. Just partially unscrew the screw in the Scrip Finding then insert Memory Wire into the half-drilled hole. Simply tighten the screw using the screwdriver (p. 105) and begin stringing. Memory Wire Scrip Findings are a stylish and stronger alternative to finishing-off your memory wire designs, providing a mechanical hold by screwing-down on the wire.

Katiedids™

Creative Components by Katie Hacker

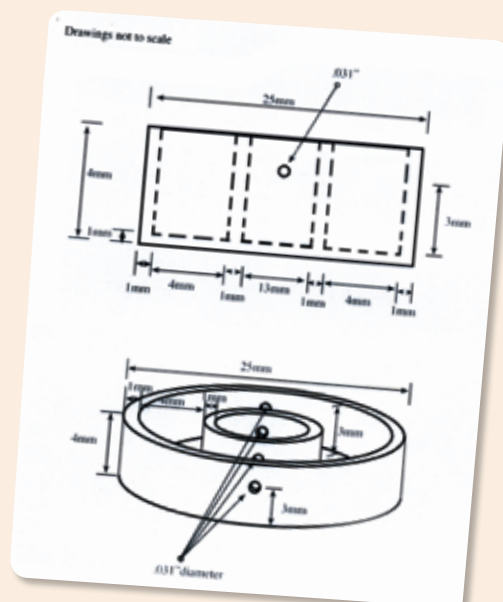

Katiedids by Katie Hacker is a line of components that are specially designed to give jewelry makers the power to customize their creations. Each piece provides a channel-set effect for beads, flatbacks, fibers, polymer clay, resin, and more. The rectangle, curve and round can be filled in a simple manner, allowing beginners to easily add a high fashion look to their hand beaded jewelry. Or, designers can use more advanced techniques with Katiedids to personalize and set their work apart. The channels in the components provide a framework, but you make it yours. Imagine the possibilities!
