

CONNECT CUPCHAIN USING A CRIMP COVER

By: Meredith Roddy

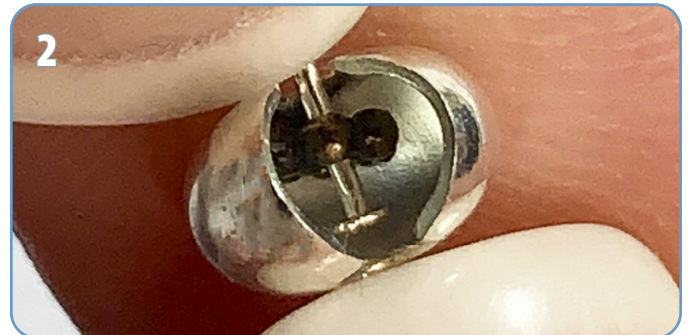

Materials

- [Flat Head Pin](#)
- [7mm Crimp Cover](#)
- 3mm Daisy Spacer
- 3mm or 4mm Cup Chain

1. Thread a daisy spacer onto a headpin.

2. Place the headpin with the daisy spacer into the crimp cover.

3. Place the first cup of the cup chain into the bottom of the crimp cover. Make sure it is flat against the daisy spacer. They should both fit just perfectly.

4. Use chain nose pliers to close the crimp cover. Finish the top of the headpin with a 4mm bead and a wrapped loop. Use a jump ring to attach your clasp.
