- Beads:
- Swarovski 5000 10mm in Rose Gold and Turquoise
- Swarovski 5600 6mm in Blue Zircon
- or beads of your choosing

### Instructions:

1. Make a variety of wrapped loop dangles using the flat headpins and ball headpins and the Swarovski beads.
2. Unscrew the end from the Instant Pendant, and thread the loops onto the Instant Pendant in a random assortment.
3. Screw the end of the Instant Pendant back on.
4. Cut three lengths of 7 Strand SilverRose Beading Wire 22 inches long.
5. Thread all three wires through a copper color Size 2 crimp tube.
6. Thread one of the wires around a clasp, then back through the crimp tube. Crimp the crimp tube and trim the short wires.
7. Use the extender plate of the Acrylic Tying Station to hold the lobster clasp in place and braid all three wires together until your necklace is about 18 inches long.
8. Thread the braided wires through the loop on the Instant Pendant.
9. Thread all three wires through a crimp tube.
10. Thread one wire around a tag and back through the crimp tube. Tighten down the crimp tube so it's resting against the top of the braided part of the wires.
11. Crimp the crimp tube.
12. Super simple, simply beautiful!
