A. Table Top Work Bench **EXCLUSIVE!**

Drawing on the popularity of the Beadalon Wooden Organizer, the Table Top Work Bench has even more compartments to keep supplies organized and easy to access. With slots for tools, drawers for findings, spaces for beads, and holes for tools, this Bench is also a great way for bead stores to keep production supplies organized. A wooden dowel provides a handy way to display and dispense spooled wire. Dimensions: 18 x 4.75 x 9 in. (45.7 x 12.1 x 22.8 cm), 9 bins, 4 drawers, 1 rack. Supplies not included.

Part #
207A-005

B. Beading Station **EXCLUSIVE!**

The Beading Station is the next frontier in workspace organization. Two wooden dowels give easy access and storage for all of your beading tools - this also lengthens the life of your tools by keeping blades away from each other. Eight hooks allow you to store strung beads, or play around with different color combinations. Another wooden dowel in the bottom provides space to store and dispense spooled wire, DandyLine, or any other spooled material. Two trays hold supplies, findings, or even projects in progress. There are so many uses for this organizer, the only limit will be your needs! Dimensions: 17.75 x 5.75 x 13 in. (45 x 14.6 x 33 cm), 2 trays, 1 rack. Supplies not included.

Part #
207A-007

C. Wooden Organizer

You can organize Beadalon wire spools, Dandyline, and other items in the eight vertical bins of this Wooden Organizer. Single large drawer is great for Needles, Findings, Beads and other loose items. The open flat bin on the end keeps tools at hand and visible. The Wooden Organizer sits nicely on any worktable. Dimensions: 8.5 x 6.5 x 3.75 in. (21.5 x 16.5 x 9.5 cm), 9 bins, 1 drawer. Supplies not included.

Part #
207A-001

D. Wooden Organizer - 2 Drawer **EXCLUSIVE!**

This 2-drawer unit is ideal for storing Tools, Stringing Wires, Cords, and other beading supplies. Drawers have removable dividers to keep things organized. Modular with the Beadalon Wooden Organizer above, stack them to get all the storage you need. Supplies not included.

Part #
207A-003

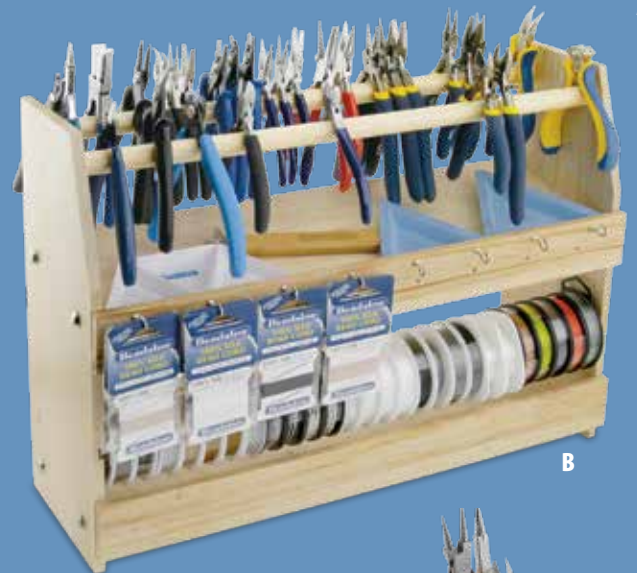

E. Acrylic Pliers Rack

Keep your tools handy, and your workspace less cluttered, with the Beadalon Acrylic Pliers Rack. Organize your tools by size, or by use. You'll never be fumbling around for your pliers again. Dimensions: 8 x 5 x 4 in. (20.3 x 12.7 x 10.1 cm). Pliers not included.

**A. Storage Boxes with Removable Dividers**

Keep your bead stash organized (or at least try) with these storage boxes. With removable dividers, you can size the compartments for different sizes or amounts of beads, findings, tools or stringing materials. A terrific storage container to make your own bead kits! Beads not included.

	Green Dividers	Height cm	Length cm	Width cm	Part #
A	4	3.8 (1.5")	8.9 (3.5")	15.2 (6")	JA-BOX4
B	9	3.8 (1.5")	12.7 (5")	20.3 (8")	JA-BOX5
C	12	3.8 (1.5")	17.8 (7")	25.4 (10")	JA-BOX6

The rounded compartment bottoms make scooping-out quick and easy!

Storage Organizer with Bead Scoop & Tweezers

This Bead Organizer has plenty of individual containers for the most complex seed bead or jewelry projects: 34 small boxes, 16 mini boxes and 2 medium boxes. It's complete with a Bead Scoop and Tweezers. Economy priced, but loaded with features. Beads not included.

	Compartments	Height cm	Length cm	Width cm	Part #
D	55	4.45 (1.75")	20.3 (8.0")	25.4 (10.0")	207A-500

Storage Organizers are individually labeled and shrink-wrapped.

Bead Storage Boxes

Store, transport, and organize Beads and Findings in these handy Storage Boxes. Clear plastic construction makes it easy to locate just the beads you need. Hinged lids close tightly around compartments to prevent mixing of parts. Beads not included.

	Length cm	Width cm	Bins	Part #
E	18.0 (7.0")	14.0 (5.5")	8	JA-BOX1
F	27.0 (10.8")	18.0 (7.0")	17	JA-BOX2

Boxes are individually labeled and shrink-wrapped.

A. Storage Ring

The Storage Ring contains eight individual containers which easily slide together side by side. To stack them, simply snap into place. Positive locking caps keep even the smallest items from escaping. Store Jump Rings, findings, seed beads, and other components – ready for your next project. Have plenty of Storage Rings handy for all your jewelry and craft projects. Beads not included.

	Compartments	Height cm	Width cm	Part #
A	8	2.54 (1.0")	10.16 (4.0")	207A-100

B. Stack Drawers

Keep tiny findings or beads organized with these handy Stack Drawers - slide them together in a stack or in a row. 10 drawers in pack. Drawers attach at the sides and top to bottom. Beads not included.

Part #
207F-110

Screw-On Stackable Containers

Transport, store, and organize beads and findings with Screw-On Stackable Containers. Clear plastic makes it easy to locate beads; twist containers together to stack. Beads not included.

EXCLUSIVE!

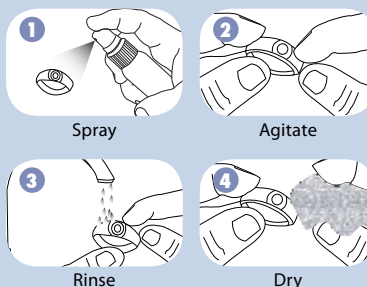

Jewelry Cleaning Spray, Brush, and Cloth **NEW!**

Beadalon Spray Jewelry Cleaner is a revolution in jewelry cleaning. This phosphate-free cleaner is an advanced botanical formula that is gentle for everyday use. The botanical formulation is based on Citrus, Mint, and Aloe - this formulation uniquely lowers the Gibbs free energy of oxide formation and restores luster and brilliance of precious metals as well as plated surfaces. The cleaner acts as a shower for jewelry, rather than a bath, allowing it to eliminate harsh and strong chemicals, acids, and abrasives.

The Beadalon Polishing Cloth is a perfect balance between a soft cloth and a less aggressive polishing compound penetrated into the cloth. After cleaning with the Beadalon Jewelry Cleaning Spray, use the Polishing Cloth to remove light scratches and restore shine to most jewelry. Use care when polishing plated findings and jewelry, since too much rubbing can remove the plating.

	Size	Part #

A

A. Japanese-Style Chain Nose Pliers

These smaller sized chain nose pliers are a great choice for smaller sized hands, perfect for shaping, holding and forming 316L Stainless Steel, German-Style, Artistic Wire, and other craft wires. Stainless steel construction, rivet joint, and coil spring construction with rubberized handles. 4.5 inches (11.43 cm).

Part #

201D-010

B

B. Japanese-Style Round Nose Pliers

Smaller handles help small hands form rings and make curves easier and more comfortable on the round noses of these pliers. Use on all types of craft wires including 316L Stainless Steel, German-Style, Artistic Wire, and others. Stainless steel construction, rivet joint, and coil spring construction with rubberized handles. 4.5 inches (11.43 cm).

Part #

201D-011

C

C. Japanese-Style Flush Cutters

These new smaller sized flush cutters are a great choice for smaller hands, perfect for flush-cutting in small places. Use on German-Style, Artistic Wire, and other soft craft wires. Stainless steel construction, rivet joint, and coil spring construction with rubberized handles. 4 inches (10.2 cm).

Part #

202D-010

D. 3 Piece Japanese-Style Tool Kit

All the great conveniences listed above in a handy kit containing both pliers and the cutters. Stainless steel construction, rivet joint, and coil spring construction with rubberized handles. Chain Nose and Round nose pliers 4.5 inches (11.43 cm), Flush Cutter 4 inches (10.2 cm).

Part #

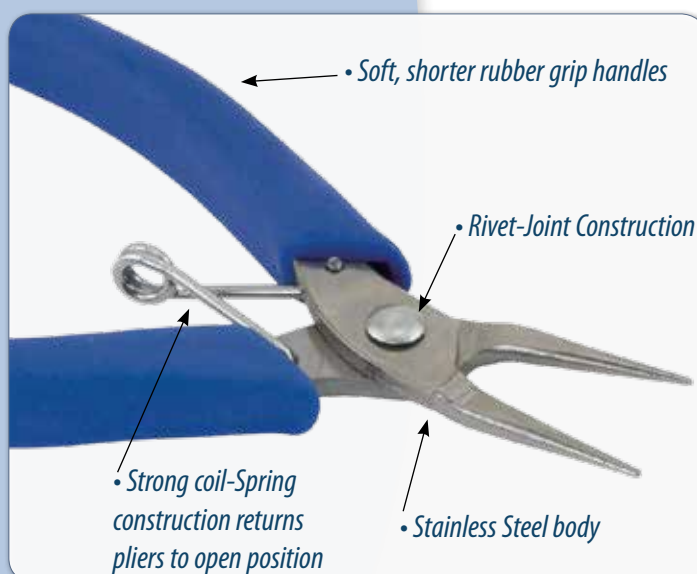

201K-200

E. 3 Piece Pocket Tool Kit **EXCLUSIVE!**

Part #

203K-060

D

Sold individually and in a convenient 3-Pack!

E

A. Pocket Crimper™

Ideal for crimping on the go, the Beadalon Pocket Crimper Tool packs full size crimping functionality into a mini size tool. Close and secure Beadalon Crimp Beads and Crimp Tubes with this easy-to-use hand tool. The inner jaw closes Crimp Beads and Tubes tightly closed with one firm grip; outer jaw rounds-off edges on Crimp Beads for a smooth, professional result. Standard Size 3.75 inches (9.5 cm). Rivet joint.

Part #
JTCRIMPS

B. Pocket Chain Nose Pliers

Rounded outer jaws and flat-sided inner jaws hold securely, crimp tightly and bend wire for shaping. Inside edges are smooth. Pliers have plastic-molded ergonomic handles for a good grip. Rivet joint, single leaf spring construction. 4 inches (10.2 cm).

Part #
2015-010

C. Pocket Nipper Tool

Use this compact and economical Nipper Tool to get in close when cutting soft wire or thread. This rivet joint cutter is great to keep handy when you're working with Beadalon beading wires, Artistic Wire, German Style, Stainless Steel, Wrapping Wire or other soft beading cords, and it's comfortable in the hand. Nipper has plastic-molded ergonomic handles for a good grip. Rivet joint, single leaf spring construction. 4 inches (10.2 cm).

Part #
JTNIP2

D. Pocket Round Nose Pliers

These pocket sized Round Nose Pliers are a great choice if you're looping and shaping Artistic Wire or other types of wire. Pliers have plastic-molded ergonomic handles for a good grip. Rivet joint, single leaf spring construction. 4 inches (10.2 cm).

Part #
2015-020

E. Pocket Split Ring Pliers

Specifically designed for opening Beadalon Split Rings, Key Rings, and making attachments fast and easy. Hardened steel nose separates Split Rings – and keeps them separated – while you secure findings. Pliers have plastic-molded ergonomic handles for a good grip. Rivet joint, single leaf spring construction. 4 inches (10.2 cm).

Part #
JTSPLTRG2

F. Pocket EZ-Crimp Pliers **NEW! EXCLUSIVE!**

Full functionality in a pocket sized tool. The Beadalon EZ-Crimp Pliers are designed to fit exclusive Beadalon EZ-Crimp Ends and findings. Simply navigate the EZ-Crimp End into the jaw of the EZ-Crimp Pliers with the smooth part of the end in the curved tip of the jaw. Next, squeeze completely and repeat if necessary on the full length of the EZ-Crimp End.

Part #
JTEZCRIMP2

G. Pocket Memory Wire Cutter **NEW! EXCLUSIVE!**

Specially designed for cutting hard wire, these shears feature hardened 90° jaws to slice effortlessly through spring-tempered wire. Shears leave a clean, safe-to-handle straight edge on Remembrance and Plated Steel Memory Wire, and can even be used to cut Beadalon Jewelry Cable up to .093" (2.36mm). 5 inches (12.7 cm). Made in USA.

DESIGNER SPARKLE TOOLS

- Comfort-sized tool with soft, non-slip handles
- Durable box-joint construction
- Quality double leaf spring action
- Spring action keeps tips in an always-open position to reduce fatigue and wear
- Exclusive blue sparkle handles are just plain pretty in the toolbox

Patented

A. Designer Sparkle Chain Nose Pliers **EXCLUSIVE!**

Every jewelry toolbox needs a pair of Chain Nose Pliers. The blue sparkle handles are perfectly sized for small hands. So versatile, suited for a wide range of jewelry tasks: form wire, wrap wire, close bead tips, open and close jump rings, attach findings. Stay-open tips are always ready. Box joint, double leaf spring construction. 4.5 inches (11.43 cm)

 Part #
 201A-101

B. Designer Sparkle Bent Chain Nose Pliers **EXCLUSIVE!**

Get just the right angle with Bent Chain Nose Pliers. Blue sparkle handles are perfectly sized for small hands. As versatile as Chain Nose Pliers, use Bent Chain Nose Pliers in a variety of jewelry making tasks – for forming wire, wire wrapping, opening and closing Jump Rings, grasping small components. Stay-open tips are always ready. Box joint, double leaf spring construction. 4.2 inches (10.67 cm).

 Part #
 201A-103

C. Designer Sparkle Round Nose Pliers **EXCLUSIVE!**

Round Nose Pliers are a must for shaping and looping Artistic Wire or other types of wire. Features blue sparkle handles perfectly sized for small hands. Stay-open tips are always ready. Box joint, double leaf spring construction. 4.5 inches (11.43 cm)

 Part #
 201A-104

D. Designer Sparkle Flat Nose Pliers **EXCLUSIVE!**

Open and close Jump Rings, form wire, grip and straighten bent wire. Make sharp bends and right angles in Artistic Wire and other soft wire. Blue sparkle handles are a perfect fit for small hands. Stay-open tips. Box Joint, double leaf spring construction. 4.5 inches (11.43 cm).

 Part #
 201A-102

E. Designer Sparkle Cutter **EXCLUSIVE!**

Just the cutter to have on hand to finish off soft wire designs and trim beading needles when they need refreshing. Small tips make close, clean cuts a breeze. Comfortable blue sparkle handles sized for small hands. Stay-open tips minimize abrasion and prolong the life of the tool. Box joint, double leaf spring construction 4.2 inches (10.67 cm).

 Part #
 202A-105

F. Designer 5-Piece Sparkle Tool Kit **EXCLUSIVE!**

E. Designer Semi Flush Cutter

Use the Semi Flush Cutter for precision cuts on wire ends. Stainless Steel, box joint, double leaf spring construction make these cutters just the right tool for your toolbox. 5 inches (12.7 cm).

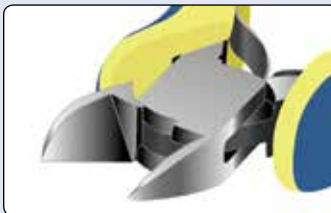

Part #
202E-007

What's the Difference?

Adjustable Lap Joint

Handles are formed independently and joined after forging. Joint is connected with an Allen Screw, giving user the ability to continue to tighten the joint as the pliers is used, keeping the joint at maximum tightness to maintain alignment and precision.

Box Joint

At the time of forging, one handle is formed around the other creating a joint referred to as a box. This construction is more expensive to produce, but maintains very good alignment, and longer life precision. The loosening effect from use is less noticeable in Box-Joint pliers.

Lap Joint

Handles are formed independently and joined after forging. This method of construction is generally less expensive and produces more economical tools. Good alignment and precision. Some loosening from use can be expected.

NEW!

SLIM LINE PLIERS **EXCLUSIVE!**

- Lengthened Stainless Steel handles allow for greater control and require less hand movement for opening and closing
- Thinner tool width than standard tools for precision work
- Precision tips and box-joint construction
- Double shoulder springs keep tips in an always-open position to reduce fatigue and wear
- Cushion-comfort Handles

A. Slim Chain Nose Pliers **NEW!**

The Slim Chain Nose Pliers feature lengthened stainless steel handles allowing for greater control and require less hand movement for opening and closing. Well suited for a wide range of jewelry tasks: form wire, wrap wire, close bead tips, open and close jump rings, attach findings. Stay-open tips are always ready. Box joint, double shoulder spring construction. 5.75 inches (14.6 cm)

Part #
201A-011

B. Slim Round Nose Pliers **NEW!**

The Slim Round Nose Pliers are essential for shaping and looping Artistic Wire or other types of wire. Features a thinner width than standard tools for precision work. Stay-open tips are always ready. Box joint, double shoulder spring construction. 5.75 inches (14.6 cm)

Part #
201A-014

C. Slim Bent Chain Nose Pliers **NEW!**

Get just the right angle with Bent Chain Nose Pliers. Equally as versatile as Chain Nose Pliers, use these Bent Chain Nose Pliers in a variety of jewelry making tasks – for forming wire, wire wrapping, opening and closing Jump Rings, grasping small components. Stay-open tips are always ready. Box joint, double shoulder spring construction. 5.75 inches (14.6 cm)

Part #
201A-013

D. Slim Flat Nose Pliers **NEW!**

Open and close Jump Rings, form wire, grip and straighten bent wire. Make sharp bends and right angles in Artistic Wire and other soft wire. Quality double shoulder springs keep tips in an always-open position to reduce fatigue and wear. Box joint, double shoulder spring construction. 5.75 inches (14.6 cm)

Part #
201A-012

E. Slim Semi Flush Cutter **NEW!**

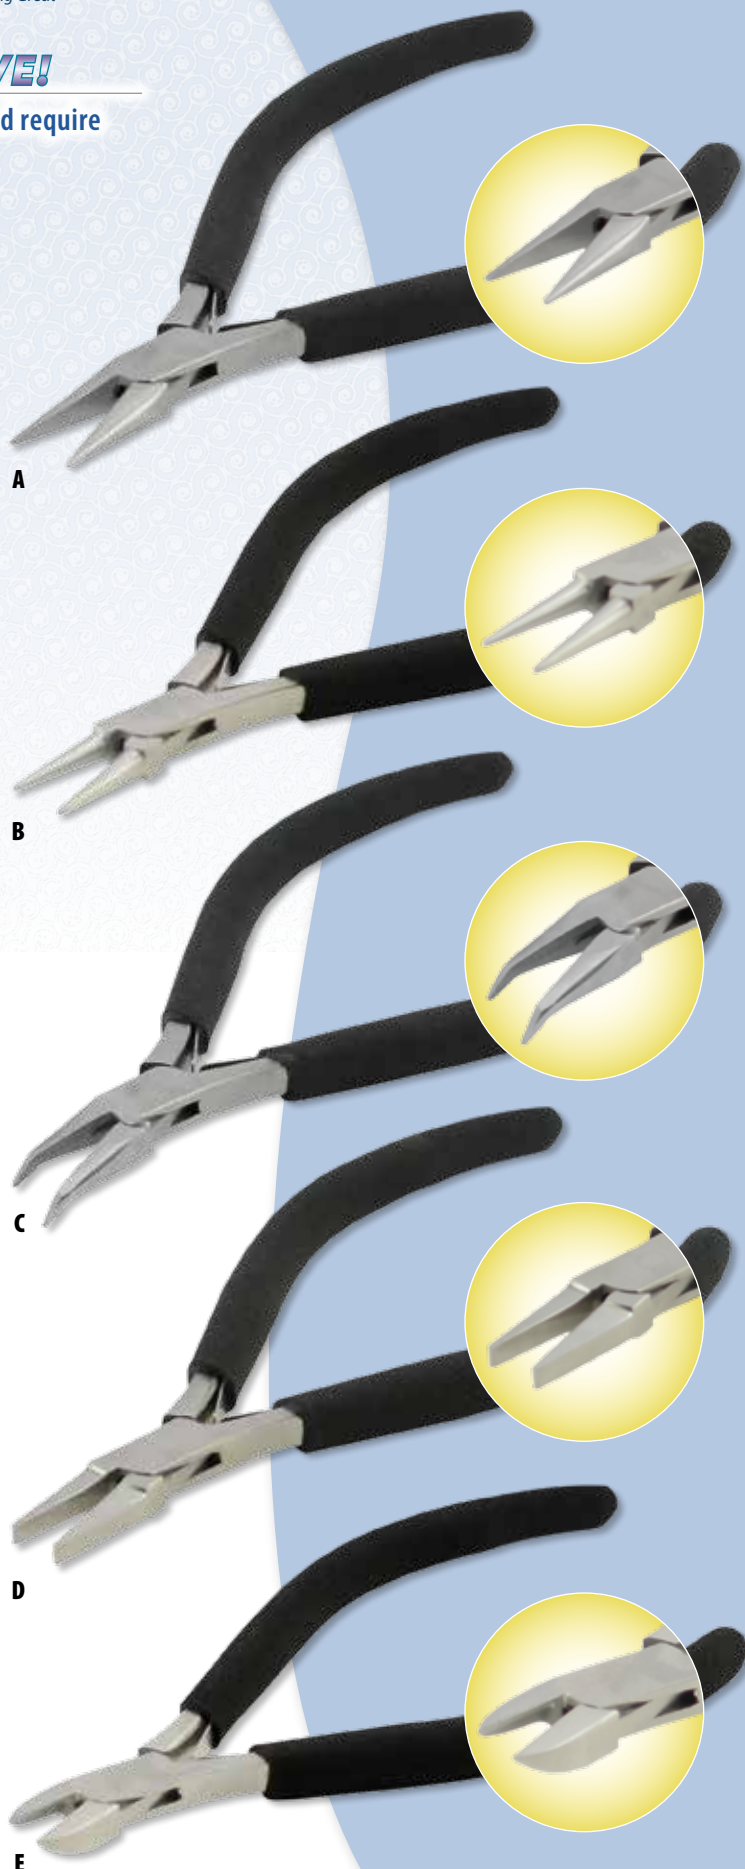

Just the cutter to have on hand to finish off soft wire designs and trim beading needles when they need refreshing. Small tips make close, clean cuts a breeze, especially with the cushion-comfort handles. Box joint, double shoulder spring construction. 5.75 inches (14.6 cm)

JTEZCRIMP

Choose from a variety of different sized tools to suit your needs. All Beadalon tools are fully functional at any size!

Mini

Pocket

Standard

A. Crimper Tool

Close and secure Beadalon Crimp Beads and Crimp Tubes (p. 110) with this easy-to-use hand tool. Inner-position grooves Crimp Beads and Tubes tightly closed with one firm grip; outer-position grooves round off edges on Crimp Beads for a smooth, professional result. Use with Beadalon #1 and #2 Crimp Beads or #2 Crimp Tubes. 5 inches (12.7 cm).

Part #
JTCRIMP1

B. Micro Crimper Tool

Never fumble closing tiny crimps again! The Micro Crimper is the right tool for securing Beadalon #1 Crimp Tubes and size #0 Crimp Beads. Use one firm squeeze to crimp with the inner-position grooves, then use the outer-position grooves to round off the crimp. The jaw grooves are comparably smaller to make a dependable closure on smaller crimp findings. 5 inches (12.7 cm).

Part #
JTCRIMP2

C. Mighty Crimper Tool

Secure larger Beadalon #3 Crimp Beads or #3, #4 Crimp Tubes with this specially sized crimper tool. Larger surface area provides a full crimp on bigger components without compromising the professional, finished look. 5 inches (12.7 cm).

Part #
JTCRIMP3

D. Dual Crimper Tool

The Dual Crimper incorporates two medium crimping cavities to fit all of the crimp tubes and beads within the medium range, each cavity is slightly larger (or smaller) than the other to give the user the ability to tighten the crimp properly. Great on Beadalon #1 and #2 Crimp Beads or #2 Crimp Tubes, as well as other non-standard crimp bead and tube sizes. New improved softer ergo handles make crimping more comfortable. 5 inches (12.7 cm).

Part #
JTCRIMP4

E. Pocket Crimper™ Tool

Ideal for crimping on the go, the Beadalon Pocket Crimper Tool packs full size crimping functionality into a mini size tool. Close and secure Beadalon Crimp Beads and Crimp Tubes with this easy-to-use hand tool. The inner jaw closes Crimp Beads and Tubes tightly closed with one firm grip; outer jaw rounds-off edges on Crimp Beads for a smooth, professional result. 3.75 inches (9.5 cm). Rivet joint.

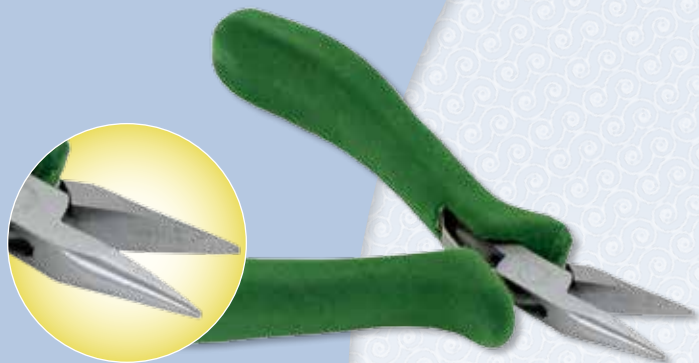

Part #
JTCRIMP5

202D-050

E

E. Designer Memory Wire Shears

Specially designed for cutting hard wire, these shears feature hardened 90° jaws to slice effortlessly through spring-tempered wire. Shears leave a clean, safe-to-handle straight edge on Remembrance and Plated Steel Memory Wire (p.30), and can even be used to cut Beadalon Jewelry Cable (p. 26) up to .093" (2.36mm). 5 inches (12.7 cm). Made in USA.

Part #
JTMEMCUT1

Velour handles feel soft and are a great choice for holding, gripping, and shaping all types of crafting wires!

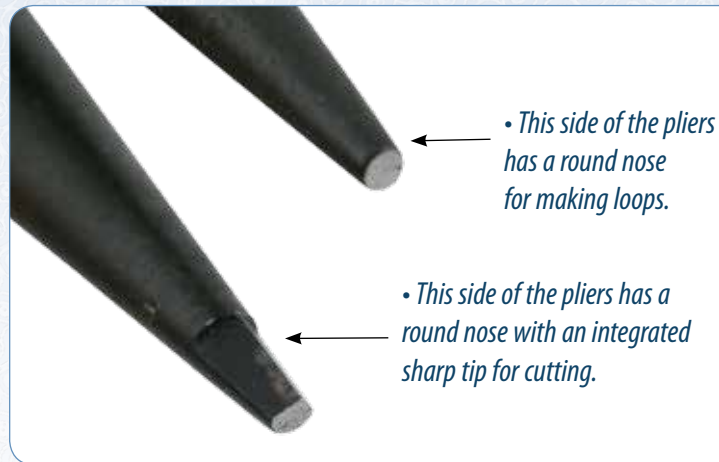

D

A. Designer Round Nose Pliers/Cutter

Use this incredible tool to speed up production of loop making and cutting with the same tool. One tip of these pliers has a small sharp surface that is able to cut soft metals quickly and efficiently. Extremely high quality tool, rivet joint, coil spring and ergonomic handles. 5.75 inches (14.6 cm). Made in Italy.

Part #
201A-099

A

B

B. Designer Flush Cutter

This ultra high quality cutter is an excellent choice for making flush cuts in Beadalon beading wires, Artistic Wire, and other soft wires. Ergonomic handles and spring tension make production less tiresome. Not for use with Memory Wire. 5.375 inches (13.65 cm). Made in Italy.

Part #
202E-001

C. Designer Semi-Flush Cutter

This induction treated Semi-Flush cutter is the perfect cutter for 316L Stainless Steel and all other crafting wires. The Induction treatment creates a tough surface on the cutting edges to give longer life. It is also an excellent production cutter for all Beadalon wires. Ergonomic handles with spring tension and rivet joint make production less tiresome and more productive. 5.5 inches (13.97 cm). Made in Italy.

Part #
202A-002

C

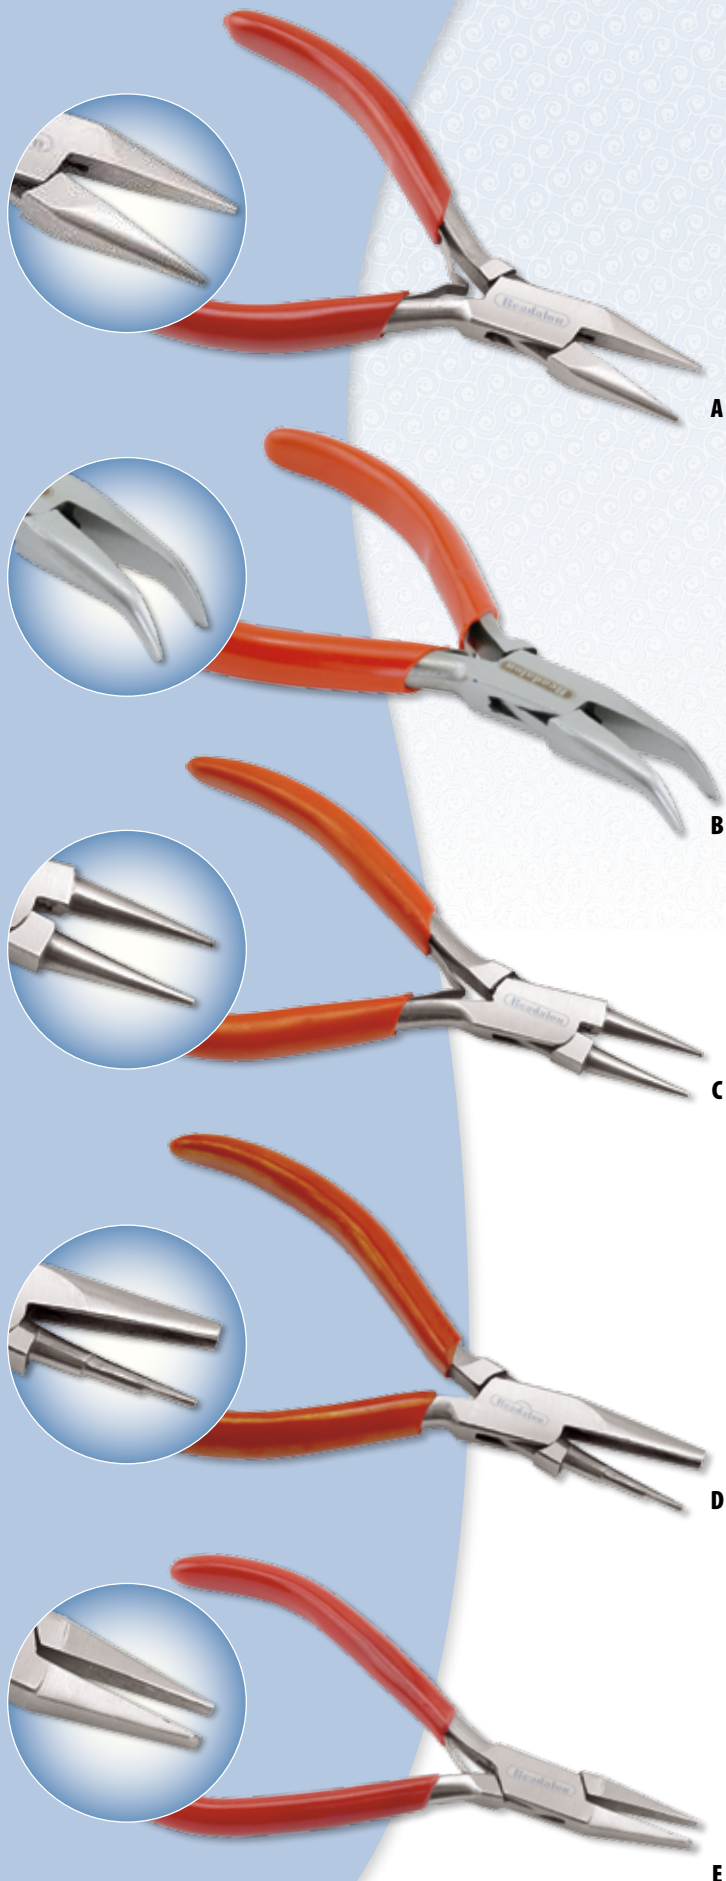

D. Designer Nipper Tool

An Economically priced Designer Nipper tool with high quality features. Rivet Joint construction, ergonomic handles and a single leaf spring help to make these Nippers very easy and comfortable to use and an extremely good value. For use on German Style Wire, Artistic Wire and all soft crafting wires. 5.25 inches (13.33 cm). Made in Italy.

Part #
202S-001

D

A. Chain Nose Pliers

Chain Nose Pliers are great for closing Bead Tips (p. 112) and crimping in tight places. Tapered tips, smooth jaws, and slightly rounded edges allow accurate crimping, shaping, and bending. A good tool for use with Artistic Wire and for wire wrapping. Box joint, double leaf spring construction with red vinyl handles. 5 inches (12.7 cm).

Part #
JTCN1

B. Bent Chain Nose Pliers

Use these Bent Chain Nose Pliers to form wire, close Bead Tips, flatten Sterling Twist Crimps (p. 99), and attach findings. The bent nose allows for a different angle to ease wire forming. A good choice for all jewelry making applications. Box joint and double leaf spring construction with red vinyl handles. 5 inches (12.7 cm).

Part #
JTCNB1

C. Round Nose Pliers

A must for wire wrapping designers. Use quality Round Nose Pliers to form loops and curves. Use to round ends of Remembrance Memory Wire or to loop Artistic Wire for beading and wire wrapping designs. Box joint construction keeps round tips aligned. Double leaf spring construction with red vinyl handles. 5 inches (12.7 cm).

Part #
JTRN1

D. Wire Looping Pliers

Top jaw has 3 sizes to help create a wide variety of loop sizes. The concave lower jaw helps form round rings or curves in wire. Ideal for use with Artistic Wires and for closing Remembrance and Plated Steel Memory Wire Ends. Box joint construction with red vinyl handles. 5 inches (12.7 cm).

Part #
JTWL1

E. Flat Nose Pliers

Designed for making sharp bends and right angles in Artistic Wire and other soft wire. Flat Nose Pliers can also grip flat objects, and work well for straightening bent wire. Box joint construction for dependable use and smooth operation. 5 inches (12.7 cm).

Part #
JTFN1

A. End Cutter

End Cutter with small cutting face makes it easy to get into hard to reach places. Double leaf, box-joint construction with red vinyl handles. 5 in. (12.7 cm)

Part #
JTEC1

B. Pinch Bail Pliers **EXCLUSIVE!**

A must-have tool when working with Pinch Bails! Specially formed jaws hold a Pinch Bail (p. 141) steadily in place while giving space for closing. Also great for closing QuickLink Connectors (p. 132). Box joint, double leaf spring construction with red vinyl handles. 5 inches (12.7 cm).

Part #
201A-222

C. Flat/Round Pliers

It's like two tools in one – Flat/Round Pliers combine Round Nose Pliers with Flat Nose Pliers in a unique, multi-purpose tool. Exceptionally versatile wire forming pliers, use it to create circles, angles, and distinctive wire forms. Use with German Style Wire, Artistic Wire, and other soft-tempered wires. Sturdy box joint, double leaf spring construction with red vinyl handles. 5.25 inches (13.34 cm).

Part #
JTFR1

D. Combo Pliers

Great for use with Artistic Wire! Combo pliers have a round nose pliers tip, chain nose pliers jaws, and an interior soft wire cutter – what a convenient addition to your toolbox. Form, shape, and cut soft wire with a single tool. Box joint construction with red vinyl handles. 5 inches (12.7 cm).

Part #
202C-002

E. Jump Ring Tool

Use on your finger to easily open and close Jump Rings. Simply insert the Jump Ring in one of the slots and twist to open and close. 0.75 inch (1.90 cm).

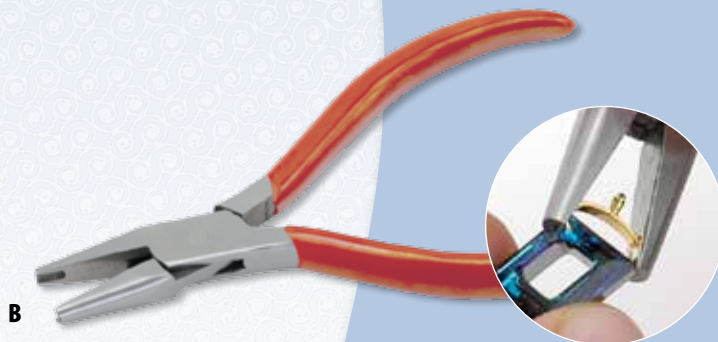

Pieces Per Pack	Part #
1	JTJRT/1
10	JTJRT

Slip the tool (ring) onto your index finger of your non-dominant hand, hold the ring in place with your thumb. Use a chain nose pliers to grasp jump ring (with your dominant hand) and slide the jump ring into the slot.

Twist the pliers to open the jump ring. Attach the jump ring to project then repeat the directions in reverse order.

G

F

You can see just how mini these pliers are next to our standard size tools! Plus, they are just so cute!

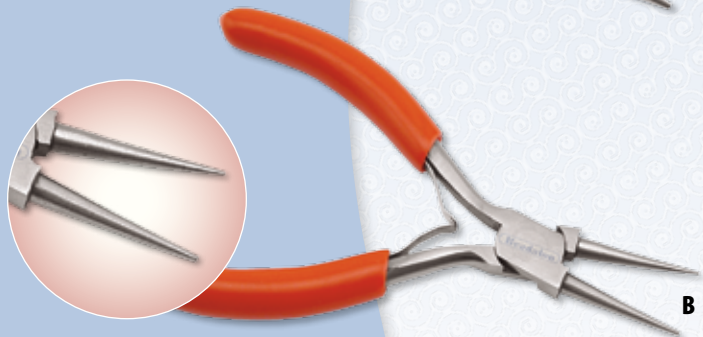

Tools not shown actual size.

**A****A. Econo Chain Nose Pliers**

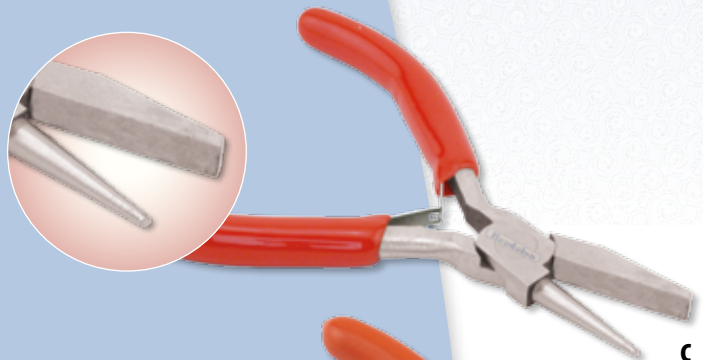

Rounded outer jaws and flat-sided inner jaws hold securely, crimp tightly and bend wire for shaping. Inside edges are smooth and do not have teeth to mar wire. Pliers have plastic-dipped handles for a good grip. Lap joint, double leaf spring construction, with red vinyl handles. 4.75 inches (12.06 cm).

Part #
201F-021

**B****B. Econo Round Nose Pliers**

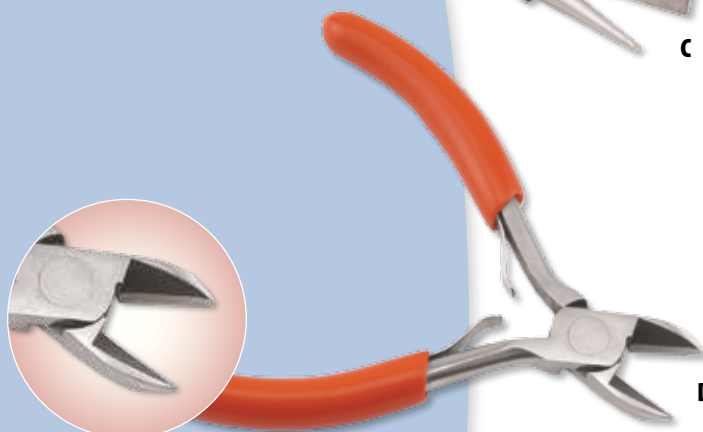

Bend wire and add curves to any craft project with these Round Nose Pliers. Pliers are a good option when a price sensitive tool is needed. Lap joint, double leaf spring construction, with red vinyl handles. 4.75 inches (12.06 cm).

Part #
201F-022

**C****C. Econo Flat/Round Pliers**

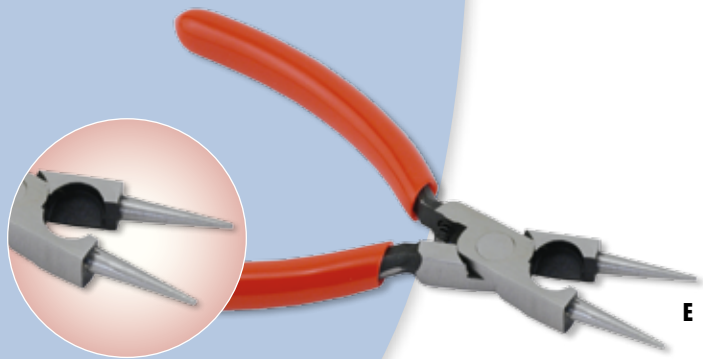

Similar to our standard Flat/Round Nose Pliers, these economical pliers combine Round Nose Pliers with Flat Nose Pliers in a unique, multi-purpose tool. Exceptionally versatile wire forming pliers. Create circles, angles, and distinctive wire forms. Use with German Style Wire, Artistic Wire, and other soft-tempered wires. Lap Joint, double leaf spring construction with red vinyl handles. 5 inches (12.7 cm).

Part #
201F-101

**D****D. Econo Cutter**

Beaders always need to have a cutter on hand to finish off soft wire designs and to trim beading needles when they need to be refreshed. This Economy Cutter is great for everyday use. Lap joint construction with double leaf springs and plastic dipped handles for a secure grip. 4.75 inches (12.06 cm).

Part #
202F-020

**E****E. Econo Rosary Pliers**

Rosary Pliers are a combination of a round nose pliers and a side cutter. Loops and bends can be made easily and you can cut wire without changing tools. 4.75 inches (12.06 cm).

Part #
201F-050

F. Econo 7-Piece Tool Kit with Zip Pouch

The Beadalon Econo 7-Piece Tool Kit with Zip Pouch comes complete with all the tools you need to begin beading. It features Chain Nose Pliers, Round Nose Pliers, Wire Cutters (with blue colored handles), Tweezers, a Bead Scoop, Snips, and Six Modular & Stackable Drawers all zipped into a handy storage pouch. This complete kit is ready to travel and keeps tools neatly organized. Store various findings and beads in the Stackable Drawers.

Part #
202K-030

**F****G. Econo 3-Piece Tool Kit**

This is an economy tool kit that has all the tools necessary for hobby and craft uses. Complete with Economy Chain Nose Pliers, Round Nose Pliers, and Side Cutters.

Part #
202K-020

**G**

A. Econo Chain Nose Pliers

Use these Chain Nose Pliers to form wire, close Bead Tips, Crimp Sterling Twist Crimps, and attach findings. A good choice for all jewelry making applications. Box joint, double leaf spring construction. Stay open tips. 5 inches (12.7 cm).

Part #
201F-002

A**B. Econo Round Nose Pliers**

These econo quality Round Nose Pliers are a smart choice for any wire bending project. Great for jewelry work with Artistic Wire and other wires. Comfortable dipped handles provide a good grip. Box joint, double leaf spring construction. Stay open tips. 5 inches (12.7 cm).

Part #
201F-003

B**C. Econo Bent Chain Nose Pliers**

These Bent Chain Nose Pliers are useful in so many wire wrapping and wire forming applications, opening and closing Bead Tips and clasps, and for grasping small components. For use with German Style Wire, Artistic Wire, and other soft-tempered wires. Box joint and double leaf spring construction. Stay open tips. 5 inches (12.7 cm).

Part #
201F-005

C**D. Econo Flat Nose Pliers**

Open and close Jump Rings, form wire, grip and straighten bent wire. Make sharp bends and right angles in Artistic Wire and other soft wire. Stay-open tips. Box Joint, double leaf spring construction. Stay open tips. 5 inches (12.7 cm).

Part #
201F-007

D**E. Econo Semi Flush Cutter**

Use the Semi Flush Cutter for precision cuts on wire ends. Box joint, double leaf spring construction make these cutters just the right tool. Stay open tips. 5 inches (12.7 cm).

Part #
202F-007

The Battery Operated Bead Reamer comes with 2 Tips and instructions!

Scan the QR code and watch a video of the Battery Operated Bead Reamer in-use!

A. Battery Operated Bead Reamer **EXCLUSIVE!**

Easily enlarge holes in pearls, gemstone, or other beads. Simply submerge bead and tip into a small amount of water, firmly hold bead and press the button and watch the reamer work. Retail-ready packaged, requires 2 AA batteries (not included). Includes two tapered tips. Replacement tips shown below. 5.25 inches (13.3 cm).

Part #
240A-100

B. Battery Operated Bead Reamer Replacement Tips

For use with the Beadalon Battery Operated Bead Reamer. Retail package contains two small tapered reamer tips, 2 inches (5 cm). Rubber sleeve included.

Part #
240A-101

C. Designer Bead Reamer

Three tools in one! Enlarge, de-burr, or round out bead holes. Three different tips are included, fitting bead holes from the smallest up to 5.0mm. Each tip is coated with diamond dust for smooth, even reaming. Tips store conveniently inside the tool and attach to the top for use. Handy spring clip makes it easy to carry. Replacement tips sold separately. 4.5 inches (11.4 cm). Made in USA.

Part #
JTREAM1

Reamer Replacement Tips

Large Tapered Reamer Tip: 3 1/8 inches (8 cm). Small Tapered Reamer Tip: 2 inches (5 cm). 45° Edging Tip: 1.25 inches (4.45 cm). Made in USA.

	Description	Part #
D	45° Edging Tool	JTEDGE1
E	Small Replacement Tip	JTREAMPTSM
F	Large Replacement Tip	JTREAMPTLG

G. Econo Bead Reamer

An economical tool for enlarging holes in beads. The diamond grit on the tips is coarser and provides more aggressive cutting action. Use care with pearls and other soft materials. Comes complete with large taper tip, small taper tip, and edging tip. Foam handle for comfort. See replacement tips above. 4.5 inches (11.4 cm).

Part #
206A-020

H. Designer Very Fine Pearl Reamer

Use the Beadalon Very Fine Pearl Reamer to enlarge and smooth out drill holes in pearls. The sharp, corkscrew-like file fits easily into the hole of any small pearl. Simply slide a pearl onto the file, and slide the pearl back and forth until desired interior diameter is reached. You will notice pearl dust as it cuts. Drill diameter: .60mm (.024") 5 inches (12.7 cm). Made in USA.

Part #
206A-012

I. Designer Fine Pearl Reamer

Like the Very Fine Pearl Reamer described above, the Fine Pearl Reamer is designed to enlarge and smooth out drill holes in pearls. The Fine Pearl Reamer has a slightly larger drill diameter. Also a great tool for removing the white release clay from lampwork glass beads. 5 inches (12.7 cm). Made in USA.

Part #
206A-011

A. Designer Straight Tweezers

Don't fumble with silk knots or small Crimp Beads any more: use Beadalon precision stainless steel Tweezers. These straight-end tweezers are great for general use with beads and findings of all sizes. 4.5 inches (11.4 cm).

Part #
213A-014

A**B. Designer Curved Tweezers**

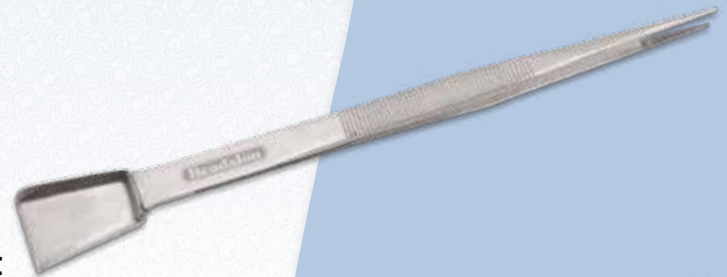

The curved super-fine points of the precision Curved Tweezers add control when picking smaller beads, and have an improved blade angle for better visibility when working with knots. Precision points are excellent for knotting. 4.625 inches (11.8 cm).

Part #
213A-010

B**C. Tweezers with Shovel**

Use the shovel on the end of these standard straight tweezers for added convenience when working with small beads and findings. Great for packaging and counting small parts. 7.187 inches (18.3 cm).

Part #
213C-001

C**D. Designer Fiber-Tip Tweezers**

Use Fiber-Tip Tweezers when working with pearls and other delicate beads. The soft fiber tips prevent marring of bead and finding surfaces. Ends have half-circle indentations for a better grip. Great for use with the Battery Operated Bead Reamer (opposite page) for holding beads under water while reaming. 4.75 inches (12.1 cm).

Part #
213C-004

D**E. Bead Scoop**

Access beads of all sizes from bins, storage containers, and mats with this compact metal scoop. Use it for inventory, sales, and design layout. Use it to clean beads off your workstation. An excellent tool for getting seed beads back into containers. It measures 6.125 inches (15.6 cm).

Part #
216A-004

A

A. Beadalon Knotter Tool

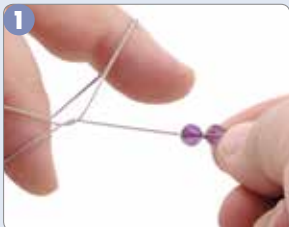

A quality knotting tool to create tight, consistent, professional looking knotted strands without a hefty tool investment. String and restring quickly with excellent results. Retail-ready packaging makes this tool a must-have for your stringing section. Great for classroom bead-stringing projects where an economy tool is essential. 5 inches (14.6 cm). Complete with illustrated, easy-to-follow instruction booklet.

 Part #
 JTECONKNOT

New Anti-Theft Packaging!

 Scan the QR code
 and watch a video
 of the Beadalon
 Knotter Tool in-use!

Beadalon® KNOTTER TOOL INSTRUCTIONS

Make a loop around two fingers with thread; drop end through fingers to make an overhand knot.

Insert the awl into the loop away from your hand; remove your fingers and tighten knot on awl.

Insert silk into the knotter's "Y" shaped prong; pull down so that the knot tightens further onto awl.

Pull down on silk with free hand; using knotter hand thumb, push up until knot slides up and off the awl (The knot should be flush against last bead). Put another bead onto working end and repeat process.

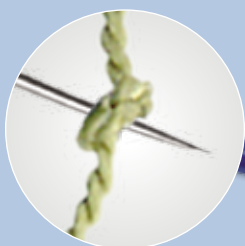

© Beadalon 2012

B

B. Designer Knotting Pliers

Thin, smooth tips help secure and position knots without fraying silk thread or other fibrous stringing materials. Stainless steel box joint construction improves leverage and dependability; rounded handles are coated for comfort. 5.125 inches (13 cm).

 Part #
 201E-001

C. Designer Beading Awl

Deluxe rubberized handle helps control tip placement. Great for hand knotting and opening small beads for covering crimps. 5.75 inches (14.6 cm).

 Part #
 206A-010

C

Tools not shown actual size.

A. Econo Knot Cutter

This tool is specially designed for cutting Silk, Nymo, Leather, Organza Ribbon, Satin Cord and other non-metal stringing materials. Lap joint construction and comfort grip handles. 5 inches (12.7 cm).

Part #
202E-010

B. Designer Beading Scissors

Beading Scissors are razor-sharp for quick and easy cutting of ALL bead cord. Small tip allows for precision snipping in tight places. 4 inches (10.2 cm). Made in Japan.

Part #
211A-002

C. Designer Straight Squeeze Scissors

Quality beading scissors are a staple for stringing. Straight Squeeze Scissors are designed to allow you to hold your stringing needle or strand and still cut with precision and control. No need to set your strand down and thread your fingers through regular scissor handles. The small tips make it easy to cut in close quarters. Perfect for cutting knots when re-stringing pearls. No need to set the beads down. Spring loaded to maintain an always-ready open position. Approx. 4.5 inches (11.43 cm).

Part #
211E-006

D. Designer Curved Squeeze Scissors

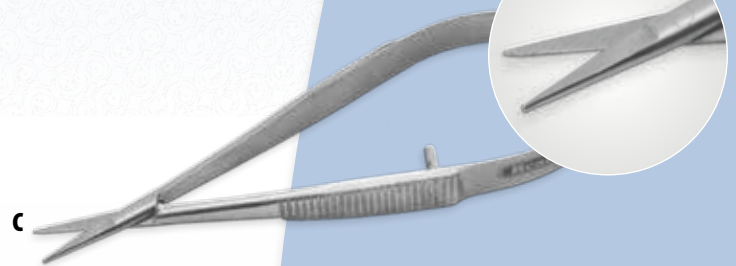

Perfect for cutting knots when re-stringing pearls or other beads. Curved Squeeze Scissors also make it a cinch to cut stringing materials on seed bead or stitching projects. Keep hold of your project and still cut with precision. No need to set things down and thread your fingers through scissors handles. The curved tips provide better visibility and make it easy to cut in close quarters. Spring loaded to maintain an always-ready open position. Approx. 4.5 inches (11.43 cm).

Part #
211E-004

E. Snipper Tool

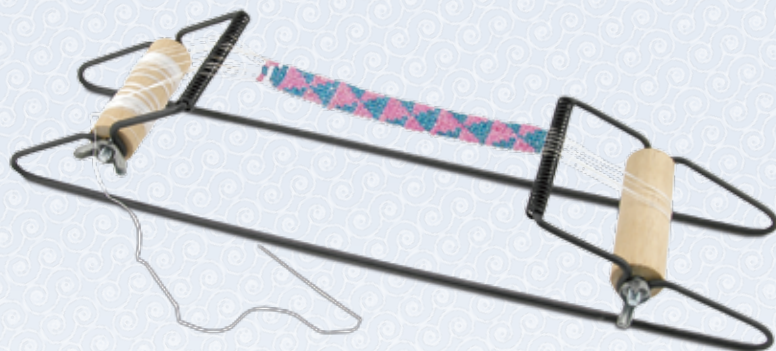

These compact Snips have precision tips to make close cuts easy. Built for efficiency, these snips look good and can cut Silk Cord, Nylon, Nymo, and most other non-metal stringing materials with ease. Always-ready blades are extremely sharp and hold their edge. The secure blade cover prevents accidental holes. 4.5 inches (11.43mm)

Part #
211A-015

Design by Leslie Rogalski

Tools not shown actual size.

A. Beading Loom

Use the Beading Loom to create continuous woven creations from seed beads. This wood and metal loom is easy to set up so you can begin weaving right away. Looming is a tradition that goes back hundreds of years for creating ornamentation on clothing and items of personal adornment. Comes boxed with detailed instructions. Work area is 6.3 cm x 11.4 cm (2.5" x 4.5"). Beads not included.

Part #
206A-050

B

Hands-Free Magnifier

Use the Hands-Free Magnifier for stringing beads, examining jewelry, working with findings, or doing hobby work. Wear it on the adjustable neck cord, and free both hands for jewelry and craft projects. Useful for working with small findings like Wire Guardians, Scrimp Findings, and Bead Bumpers.

	Lens Size	Weight	Magnification	Part #
B	14x11 cm (5.5" x 4.25")	243.8g (8.6 oz)	1.5X (6X inset)	225A-001

C

D

C. 60mm Slide Gauge

If a ruler just won't do, use the Beadalon Slide Gauge. Perfect for measuring beads, calibrated cabochons, and other small objects.

Part #
222F-004

D. 80mm Econo Slide Gauge

Same great measuring capabilities as our metal version, only this one is plastic. Perfect for measuring beads, calibrated cabochons, and other small objects.

Part #
222F-002

Spin-N-Bead™ Bead Loaders

String seed beads, liquid silver beads, or other small beads with speed and ease. The Beadalon Spin-N-Bead bead loader makes the tedious work simple! Fill the bowl about half-full of beads, and then spin. Insert a Curved Big Eye Beading Needle into the spinning beads and watch them jump onto the needle! The beads nest all on their own - when ample beads are on the needle, then move them to the connected stringing material and dip the needle back into the spinning beads to load on another few inches.

Description	Height cm	Width cm	Part #
A Mini Spin-N-Bead	5.72 (2.25")	6.35 (2.5")	206A-402
B Spin-N-Bead Jr.	8.89 (3.50")	8.89 (3.50")	206A-410
C Spin-N-Bead	14.6 (5.75")	10.8 (4.25")	206A-400

Use Curved
Beading Needles
with the
Spin-N-Bead!

Beadalon®

1. To use a Curved Beading Needle with the Spin-N-Bead, fill the bowl about half-full with beads.
2. Grasp the spinner and spin. (not too fast though, the beads might fly-out).
3. Insert the Curved Needle into the spinning beads in the opposite direction of the spin and watch them jump onto the needle!

When ample beads are on the needle, then move them to the connected stringing material and dip the needle back into the spinning beads to load on another few inches.

Artistic Wire®
permanently colored wire

Attention Retailers

Did you know nearly all Beadalon and Artistic Wire products are sold in both Retail and Bulk packages?

Retail packages are designed to merchandise, or hang, on pegboard and slatwall displays, and include the products featured in our standard POG's. Retail packages have detailed consumer labeling and are sold in inner pack quantities that fit a 6 inch (15.24 cm) display peg. Simply open the inner pack, load the products on the peg, and there is no backstock. Bulk packages work well for the more traditional bead stores that prefer to sell loose items out of bins, or repack into smaller bags for resale. Regardless how your bead store or beading aisle may be set up, Beadalon has what you need.

Retail Packaging Advantages

- Strong Beadalon & Artistic Wire brand recognition and advertising campaigns to drive sales.
- Compatible products create additional sales opportunities for you and helps create a self-shop stringing department.
- UPC labeling improves your inventory control and merchandising.
- Trilingual labeling: English, French, and Spanish. French labeling meets Quebec standard.
- QR codes, scannable with smartphones, provide additional product information.

Beadalon retail packs have detailed consumer labeling and feature QR codes.

Traditional Bulk Packaging

- Lower pricing on a part-per-piece basis.
- Easy replenishment of open merchandising bins, commonly used in bead stores.
- Ideal for finished jewelry manufacturers.

Need help deciding which Beadalon products to sell in your store?

We can help! We have many profitable Plan-O-Gram (POG) solutions. Contact our Sales Department (1-866-4BEADALON or sales@beadalon.com) to receive a copy of our POG brochure containing many standard POG's featuring our top selling products designed to increase your sales and profits. You can purchase any of these product groupings as is, or modify them as you like.

Artistic Wire, Chain Maille Rings, & Tools

Beadalon Findings & Tools

Contact our Sales Department for help preparing a Beadalon or Artistic Wire POG for your store.

We can send you our POG booklet that describes several popular assortments and that outlines your costs, suggested selling prices, and profit margin.
