

QUICK SNAPS *ALL NEW!*

AFW Quick Snaps make fast lure and rig changes effortless without giving up strength. Formed from high-tensile stainless steel with a low-visibility black finish, they resist corrosion in fresh and saltwater and rig cleanly to mono, fluorocarbon, or wire. A secure closure holds your connection under load, so you can swap baits in seconds and keep fishing.

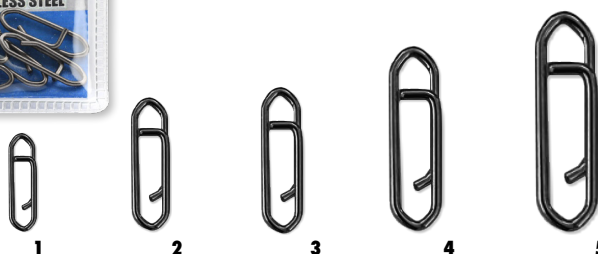

Quick Snaps

PLANERS

The AFW In-Line Planer is a precisely balanced trolling tool that puts your bait at depth without heavy sinkers. A lead keel keeps it tracking straight, while water pressure on the blade drives it to a controlled, repeatable depth. On the strike, the planer trips to a low-drag position, so you fight the fish instead of the hardware.

Planers

Size No.	Style/Finish	Diving Depth	Black Part #
1	In-Line Black	5-12 ft (1.5-3.7 m)	TA-PL1-BK
2	In-Line Black	10-20 ft (3-6.1 m)	TA-PL2-BK

Grand Slam[®] mono

BIG FISH TOUGH!

SMOKE BLUE

GRAND SLAM[®] MONOFILAMENT LINE

Grand Slam is the most versatile monofilament in the HI-SEAS line, engineered to perform from light freshwater presentations to offshore big game. A precision formulation delivers high impact strength, exceptional abrasion resistance, and reliable knot strength, with controlled stretch that adds fighting power without giving up sensitivity. It loads cleanly on both conventional and spinning reels. Every yard is computer-checked for consistent diameter and breaking strength, so the line performs the same cast after cast. When the Money's On The Line, Grand Slam is BIG FISH TOUGH.!

AFW BRAID RESISTANT SINKER SLIDE

Keep your bait moving freely without sacrificing braid performance. The AFW Braid Resistant Sinker Slide features a precision-formed stainless steel slide body paired with a soft, braid-friendly polymer sleeve that protects your line from abrasion and cut-through, even under heavy loads. The integrated Duo-Lock snap allows quick sinker changes on the water without retying, so you can adapt to changing conditions fast. The Size #6 with Yellow Sleeve handles lighter inshore applications, while the Size #8 with Green Sleeve is built for heavier bottom rigs and surf applications.

TRIPLE FISH
MONOFILAMENT LINE

Triple Fish Monofilament is a dependable, angler-friendly fishing line that offers unbeatable value for weekend warriors. The line provides high knot strength, good abrasion resistance, and it is very easy to use on both spinning and conventional reels. Triple Fish mono is a great multi-purpose line for bottom fishing, wreck fishing, casting from rock piles and shorelines, top water casting, and trolling. This European-made, econo-priced line is available in clear, camo, and pink color spools for anglers that want to cast their dollars a lot farther.
